Research Company

The Business Research Company

One of the most significant contributors to market growth is the rising prevalence of hepatitis A. This highly contagious viral infection primarily impacts the liver but can be effectively managed and prevented through vaqta vaccination. Data from the European Centre for Disease Prevention and Control (ECDC) highlights this trend, reporting 4,548 hepatitis A cases across 30 European countries in 2022, compared to 3,919 cases in 2021.
