

# Mainstream Fluid & Air Joins AMCA International to Further Innovation in Air Movement Industry

*Mainstream Fluid & Air joins AMCA, reinforcing its commitment to innovation, industry standards, and high-performance air movement solutions.*

BERKELEY HEIGHTS, NJ, UNITED STATES, March 13, 2025  
/EINPresswire.com/ -- [Mainstream](#) Fluid

& Air, a leading manufacturer of advanced fan systems and air movement solutions, is proud to announce its official membership in the Air Movement and Control Association ([AMCA](#)). This milestone reinforces Mainstream's commitment to industry excellence, performance standards, and continuous innovation in air movement technology.

“

Being part of AMCA allows us to contribute to industry standards, stay at the forefront of technological advancements, and ensure our products meet the highest levels of reliability and efficiency.”

*Jim Markham, Managing Director*

AMCA International, a globally recognized organization, is dedicated to advancing the air movement and control industry through rigorous testing, certification, and advocacy. As a member, Mainstream Fluid & Air will collaborate with industry leaders to help shape the future of air system design, efficiency, and performance.

“Joining AMCA is a significant step for Mainstream,” said Jim Markham, Managing Director at Mainstream Fluid & Air. “We’ve always prioritized quality, innovation, and performance in our fan solutions. Being part of AMCA allows us to contribute to industry standards, stay at the

forefront of technological advancements, and ensure our products meet the highest levels of reliability and efficiency.”

Mainstream Fluid & Air specializes in [fan arrays](#), plenum and axial fans, coils, EC, AC and PMEC

motors, cooling tower fans, control panels, and VFDs. The company recently introduced IntelliCAT Fan Selection Software, a groundbreaking tool that enables engineers and contractors to spec out their own fans and fan arrays, with future capabilities for self-purchasing.

Through AMCA membership, Mainstream Fluid & Air will engage in industry initiatives, participate in standards development, and further its mission to provide cutting-edge air movement solutions that optimize performance, efficiency, and sustainability.
