

Neuromodulation Market Set to Expand with Integration of AI and Advanced Bioelectronics | CAGR of 6.2%

The global neuromodulation market size was valued at \$2,480.21 million in 2020, and is projected to reach \$4,342.50 million by 2030.

PORTLAND, OR, UNITED STATES, March 13, 2025 /EINPresswire.com/ -- Neuromodulation is a technique used to modify the function of the nervous system through the use of electrical or chemical signals. This can be done by applying an electrical current or chemical agent directly to nerve cells, which alters their activity and communication with other cells. Neuromodulation can be used to treat a wide range of neurological and psychiatric disorders, including chronic pain, epilepsy, depression, and Parkinson's disease. It can also be used to enhance cognitive function or to control certain physiological processes, such as heart rate or blood pressure. The global [neuromodulation market](#) was valued at \$2,480.21 million in 2020, and is projected to reach \$4,342.50 million by 2030, growing at a CAGR of 6.2% from 2021 to 2030.

By biomaterial, the market is divided into metallic biomaterials, polymeric biomaterials, and ceramic biomaterials. The metallic biomaterials segment dominated the market in 2020, and this trend is expected to continue during the forecast period, due to advantages of metallic biomaterials.

Major market players covered in the report, such as –

- Abbott,
- Aleva,
- Neurotherapeutics SA.,
- Boston Scientific Corporation,
- LivaNova,
- Medtronic,
- MicroTransponder,
- Neuronetics,
- NeuroPace Inc.,
- NeuroSigma, and

Frequently Asked Questions?

Q1. What is the total market value of Neuromodulation Market report?

Q2. Which are the top companies holding the market share in Neuromodulation Market?

Q3. Which are the largest regions for this Market?

Q4. What is the leading technology of Neuromodulation Market?

Q5. What are the major drivers for this specific Market?

Q6. What are the upcoming key trends in the Neuromodulation Market report?

About Us -

Allied Market Research (AMR) is a full-service market research and business-consulting wing of Allied Analytics LLP based in Portland, Oregon. Allied Market Research provides global enterprises as well as medium and small businesses with unmatched quality of "Market Research Reports" and "Business Intelligence Solutions." AMR has a targeted view to provide business insights and consulting to assist its clients to make strategic business decisions and achieve sustainable growth in their respective market domain.

Pawan Kumar, the CEO of Allied Market Research, is leading the organization toward providing high-quality data and insights. We are in professional corporate relations with various research data tables and confirms utmost accuracy in our market forecasting. Each and every us companies and this helps us in digging out market data that helps us generate accurate y data presented in the reports published by us is extracted through primary interviews with top officials from leading companies of domain concerned. Our secondary data procurement methodology includes deep online and offline research and discussion with knowledgeable professionals and analysts in the industry.
