The gutter connected commercial greenhouse market is anticipated to grow at a CAGR of 8.09% from US\$ 24.211 billion in 2025 to US\$ 35.728 billion by 2030.

NEW YORK, NY, UNITED STATES, March 17, 2025 /EINPresswire.com/ -- According to a new study published by Knowledge Sourcing Intelligence, the gutter connected commercial greenhouse market is projected to grow at a CAGR of 8.09% between 2025 and 2030 to reach US\$ 35.728 billion by 2030.

Gutter connected greenhouses are structures that are connected by a gutter system, allowing for a larger growing area and increased production. This design also allows for better climate control and reduced energy costs, making it a popular choice among growers.

The gutter connected commercial greenhouse market is anticipated to grow at a CAGR of 8.09% from US\$ 24.211 billion in 2025 to US\$ 35.728 billion by 2030."

Knowledge Sourcing Intelligence The market for gutter connected commercial greenhouses is expected to grow at a rapid pace in the coming years. Factors such as the rising demand for year-round produce, advancements in greenhouse technology, and government initiatives promoting sustainable <u>agriculture</u> are driving this growth.

According to industry experts, the use of gutter connected greenhouses can result in a 20-30% increase in production compared to traditional greenhouses. This, coupled with the ability to grow a wider variety of crops, makes it an

attractive option for commercial growers.

The market is also seeing a rise in the adoption of gutter connected greenhouses by small-scale and urban farmers, as it allows them to grow more produce in a smaller space. This trend is expected to continue as the demand for locally grown, fresh produce continues to rise.

The gutter connected commercial greenhouse market is a promising and rapidly growing sector in the agriculture industry. With its numerous benefits and increasing demand, it is expected to play a significant role in meeting the growing demand for fresh, locally sourced produce.
