

Miguel Zaragoza Fuentes: Innovation as the Driving Force of the Energy Industry

Zeta Gas founder Miguel Zaragoza Fuentes leverages technology to transform LP gas supply and cut the environmental footprint.

WASHINGTON D. C., WA, UNITED STATES, March 17, 2025

/EINPresswire.com/ -- Energy powers the world, but in a sector where tradition and modernity coexist, few entrepreneurs have managed to innovate without compromising supply stability. With over six decades in the gas industry, [Miguel Zaragoza Fuentes](#) has proven that growth and sustainability can go hand in hand.

The founder of Zeta Gas, Miguel Zaragoza Fuentes, is committed to technology to transform

From his leadership at Zeta Gas, Zaragoza Fuentes has promoted the adoption of new technologies to optimize LP gas distribution, ensuring that millions of homes and businesses have access to a more efficient and secure supply. His vision has been clear: to modernize without losing the essence of a service essential to the economy and daily life.

“

Our responsibility is not just to ensure access to energy but to do so efficiently and sustainably.”

Miguel Zaragoza Fuentes

A Sector in Transformation

For years, LP gas distribution has relied on traditional logistics processes. However, with the advent of digitalization, the industry has had to adapt to new

consumption and operational efficiency dynamics. In this context, Zeta Gas has led the implementation of real-time smart monitoring systems, enabling optimized distribution routes, waste reduction, and enhanced supply security.

"Our responsibility is not just to ensure access to energy but to do so efficiently and sustainably. Innovation is key to ensuring that the industry evolves without compromising people's well-being

or the environment."

— Miguel Zaragoza Fuentes

This approach has led the company to incorporate lower-emission vehicles and develop optimized refueling stations, aligning with international sustainability standards. Beyond improving operational efficiency, these actions aim to reduce the carbon footprint of a sector historically criticized for its environmental impact.

Beyond Business: A Real Impact on the Economy

The modernization of the energy sector not only represents progress in efficiency but also in job creation and economic stability in the regions where Zeta Gas operates. Process optimization has allowed more communities, especially in remote areas, to access reliable energy, directly impacting the development of small and medium-sized businesses.

Unlike other industry players, Miguel Zaragoza Fuentes's commitment is not solely focused on reducing operating costs but on building a sustainable model that benefits society as a whole.

About Miguel Zaragoza Fuentes

Miguel Zaragoza Fuentes is the founder and CEO of Zeta Gas, a leading LP gas distribution company in Mexico, Central America, the Caribbean, and Europe. Throughout his career, he has been recognized for his ability to transform the industry through innovation and sustainability. His focus on modernizing the energy sector has enabled millions of people to access a more efficient and secure supply.
