

Beyond Belief: A Bold New Look at the Book of Mormon's Authenticity.

Joseph Dean DeBarthe's latest book is a layman's guide to the Book of Mormon, backed by solid scriptural evidence from the King James Version of the Bible.

INDEPENDENCE, MO, UNITED STATES, April 11, 2025 /EINPresswire.com/ -- A groundbreaking new book, [Biblical and Non-Biblical Evidences for the Book of Mormon](#) by Joseph Dean DeBarthe, is now available. This compelling work explores the historical, linguistic, and scriptural evidence surrounding the Book of Mormon, offering fresh perspectives on its authenticity and significance.

Many have dismissed the Book of Mormon as a work of fiction, attributing it to Joseph Smith, Jr. However, DeBarthe's meticulous research and analysis challenge this assumption, revealing that its

complexity, scriptural connections, and historical accuracies point to a much deeper origin. With a balanced approach, he presents biblical and non-biblical sources that support the validity of the Book of Mormon and encourages readers to approach the text with an open mind and prayerful consideration.

“

God loves all of us.”

Joseph Dean DeBarthe

“Some will read this book to refute it; others will read it to learn,” says DeBarthe. “My goal is to provide useful tools and information to help people understand what the Book

of Mormon has to offer. This is not a scholarly work, but rather a practical guide for those interested in exploring the subject further.”
