> *Jason Caparoso*

BlackHawk Data's inclusion on the CRN Tech Elite 250 list highlights its dedication to providing cutting-edge IT solutions that empower businesses across industries. Under Jason Caparoso's leadership, the company continues to deliver innovative, secure, and scalable technology strategies that help clients navigate complex IT challenges.

"We are incredibly proud to be recognized on the CRN Tech Elite 250 list," said Jason Caparoso. "This reflects our unwavering commitment to technical excellence, ongoing education, and delivering high-value solutions for our customers."

The CRN Tech Elite 250 list is compiled based on companies that have achieved the highest levels

of certification from major IT vendors. BlackHawk Data's continued investment in training and certification underscores its mission to provide strategic, secure, and reliable technology solutions.

As BlackHawk Data continues to expand its expertise in cybersecurity, private networking, and cloud solutions, this recognition further cements its position as a leader in the IT channel.
