## What is Medicaid StarSearch?

=====

Medicaid StarSearch is a long-running spotlight series created and hosted by Clay Farris of MostlyMedicaid, active since 2017. It's designed to introduce Medicaid managed care plans and Health and Human Services (HHS) agencies to innovative solution vendors they might not otherwise hear about.

In a crowded and often opaque vendor landscape, StarSearch shines a light on companies—especially smaller or emerging ones—that are tackling Medicaid's biggest challenges in new and creative ways. Whether through technology, services, or data solutions, these vendors are helping to drive better outcomes, streamline operations, and support compliance across the Medicaid ecosystem.

Each installment covers the basics about the company, the vision the company has for impacting the Medicaid space and details on solutions available. The main concept for Medicaid StarSearch is that HHS agencies and health plans get to learn about solution providers they might not ever know about- without having to get looped into a sales process.

We began with one simple concept in mind - think of Medicaid as a massive industry. Besides the healthcare services provided to Medicaid enrollees, there are hundreds of thousands of people that process claims, build software, consult with hospitals - just to name a few segments. Those people need

services and products to help them do their jobs, increase their revenues and improve their skills. And that's where Mostly Medicaid comes in. We are uniquely positioned to reach influencers across all segments and provide them with actionable information and recommendations. We have built a brand
