

# DishDash Launches Advanced All-in-One Ordering & Pickup Platform for Hospitality and Retail Businesses

*All-in-One Order Management Platform: Three Modes. One Solution. Zero Hassle.*

GOLD COAST, AUSTRALIA, March 20, 2025 /EINPresswire.com/ -- DishDash (<https://dishdash.io>) proudly announces the launch of its groundbreaking ordering and pickup management platform, designed specifically for restaurants, cafés, pharmacies, florists, and other retail businesses. In an era when consumer expectations are rapidly evolving, DishDash is set to transform how businesses manage orders and engage with customers.

Curbside Pickup

## A Game-Changing Statistic

“

DishDash is an affordable tech solution that cuts the hassle out of ordering and pickup, making life easier for businesses and customers alike!”

*Rami Smair, CEO at DishDash*

Did you know that curbside pickup orders have surged by 66% in the past year alone? As more consumers opt for convenience, the pressure is mounting on businesses to offer fast, flexible, and efficient ordering solutions that match these expectations. In today's competitive market, businesses need a unified solution to handle all ordering and pickup methods—without compromising service quality or customer satisfaction.

## The Problem: Lost Sales, Lost Time, Lost Loyalty

Imagine this: A customer orders a birthday cake online but can't find parking for curbside pickup. A diner walks out after waiting 15 minutes to place a table order. A pharmacy loses a loyal client

because its BOPIS system is clunky. These scenarios aren't just frustrating—they're costly.

- 65% of consumers say convenience is the top factor when choosing where to shop.
- Businesses lose up to 30% of potential revenue due to inefficient order management.
- Staff spend 12+ hours weekly juggling disjointed systems for pickup, in-store, and dine-in orders.

Traditional ordering systems often fail to provide the flexibility needed to meet these demands, leaving businesses struggling to keep up.

### The DishDash Solution

DishDash is the answer to these challenges. Built to simplify operations and enhance customer engagement, DishDash is an innovative, all-in-one platform that consolidates three key ordering and pickup modes into one seamless solution:

#### 1. Curbside Pickup:

- Customers can order ahead from their mobile devices and have their items delivered directly to their vehicle—no need to leave the car or worry about parking hassles.
- Real-time GPS alerts notify staff when arrivals are near.
- Result: 40% faster turnaround and happier, repeat clients.

#### 2. BOPIS (Buy Online, Pick Up In-Store):

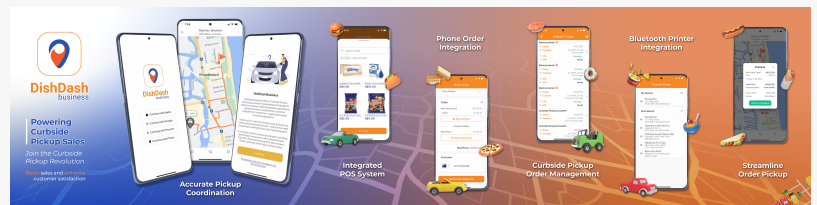

- Manage in-store pickups efficiently by allowing customers to order online and collect their items at their convenience.
- Reduce wait times and free up staff for other tasks.
- Result: 50% fewer customer service complaints and smoother operations.

#### 3. Table Ordering:

- Enhance the dining experience by enabling customers to order directly from their tables via QR

The DishDash App

The DishDash Staff App

codes.

- Ensures a smooth, contactless ordering process that not only improves service speed but also drives repeat business.
- Upsell effortlessly with dynamic menu suggestions (e.g., “Pair your pasta with this starter”).
- Result: 25% higher average order value and faster table turnover.

No more app-hopping. No more chaos. Just one dashboard to rule them all.

## Key Benefits for Your Business

- **Boost Sales:** With multiple ordering channels, DishDash increases your reach and order frequency, ensuring you never miss a sale due to inefficient processes.
- **Streamline Operations:** Our platform integrates all aspects of ordering and pickup into one system, simplifying staff workflows and reducing the chances of errors.
- **Enhance Customer Satisfaction:** By adapting to customer preferences instantly—whether they’re in a car, at home, or at a table, DishDash creates a superior customer experience that builds loyalty.
- **Flexible, Scalable Solution:** Whether you're a small café or a large retail chain, DishDash adapts to your needs. Our self-onboarding process means you can be up and running within an hour—no complicated training required.
- **Unified Analytics:** Track sales trends, peak times, and customer behavior across all modes.
- **Cost-Effective:** With a subscription-based model and no per-order fees, DishDash ensures you only pay for what you use, keeping your operating costs low while maximising revenue.

## The Future of Ordering Starts Now

The pandemic accelerated demand for contactless solutions, but convenience is here to stay. With DishDash, businesses future-proof their operations while delivering the shopping experiences modern customers crave.

### Key Stats:

- Businesses using DishDash see 20% higher customer retention.
- 87% of users report reduced operational costs within six months.
