

Polenergia Obrót Selects Orchestrade ETRM

LONDON, UNITED KINGDOM, March 25, 2025 /EINPresswire.com/ -- Polenergia Obrót S.A. has chosen Orchestrade's Energy Trading and Risk Management (ETRM) platform to support its energy trading and risk management capabilities. This will significantly strengthen their competitive edge as the energy trading arm of Polenergia Group, responsible for marketing its renewable energy production.

“ We expect the Orchestrade platform to help manage hedging of Polenergia Group renewable production using structured PPA contracts and mitigate involved risks. ”

Marek Krzysteczko,
President of the Board of Polenergia Obrót S.A.

Polenergia Group is the largest Polish private, vertically integrated energy group involved in energy production from renewable sources, including wind farms and solar plants. The company's activities extend across the full energy value chain, including production, distribution, and the trade of electricity, making it a leader in sustainable and innovative energy solutions in Poland. Polenergia's vision is aligned with national and EU objectives to decarbonize the energy sector, and Orchestrade's platform is expected to play a crucial role in achieving these goals.

“

We expect the Orchestrade platform to help manage hedging of Polenergia renewable production using structured PPA contracts and mitigate involved risks.”

*Marek Krzysteczko, President
of the Board of Polenergia
Obrót*

Orchestrade's ETRM platform is a fully integrated, cloud-native solution built on a modern, scalable, event-driven architecture. Designed to manage the substantial data volumes essential for complex energy trading, it supports both financial and physical products, including power,

natural gas, renewables, and environmental assets. The ETRM delivers straight-through-processing with real-time position and P&L, advanced risk assessment tools, and automated workflow management.

For companies like Polenergia, focused on sustainable growth and reducing carbon emissions, Orchestrade delivers an efficient, cost-effective solution aligned with operational and environmental goals.

This collaboration positions Orchestrade as a critical technology partner in Polenergia's journey towards a sustainable, low-carbon future, enabling them to respond more effectively to the dynamic requirements of the Polish and European energy markets.

“Orchestrade stood out due to its strong technical expertise and its ability to propose a highly competitive, value-driven solution.”

Marcin Gwarda,
Board Member, Polenergia Obrót S.A.

Following a rigorous procurement process Polenergia selected Orchestrade for its robust functionality, adaptability, and commitment to client collaboration. Marek Krzyszczyk, President of the Board of Polenergia Obrót explained “We expect the Orchestrade platform to help manage hedging of Polenergia Group renewable production using structured PPA contracts and mitigate involved risks.” Marcin Gwarda, Board Member responsible for trading activity added “Orchestrade stood out due to its strong technical expertise and its ability to propose a highly competitive, value-driven solution. The platform's comprehensive functional coverage and Orchestrade's readiness to develop custom interfaces in close partnership with our business and technology teams were critical factors in our decision.”

Jonathan Gane, Chief Revenue Officer for Orchestrade, commented “We are thrilled to welcome Polenergia to our growing European client base, especially at this transformative time in the energy sector. Polenergia's commitment to sustainable energy and innovation is aligned with Orchestrade's mission to support the energy transition through digital transformation. As the energy market faces new challenges from decarbonization and regulatory changes, we are dedicated to providing the technology that empowers companies like Polenergia to navigate these complexities and achieve their strategic objectives.”
