"We recognize that today's homebuyers value convenience and technology-driven solutions," said Mr. Jeff Meseman, Spokesperson for Star Ready to Move Homes. "Our 360-degree walkthroughs allow customers to explore every corner of our homes virtually, saving them time and travel while still providing an immersive viewing experience that helps them make informed decisions."

The virtual walkthrough technology provides detailed, interactive views of Star's ready-to-move homes, allowing prospective buyers to view homes at any time, day or night and share tours with family members involved in the decision-making process.

This service enhancement particularly benefits residents in Regina, Saskatoon, and throughout Manitoba and Saskatchewan, who may live far from Star's physical showrooms but are interested in exploring the company's offerings.

Keith Mozdzen, a recent Star homebuyer, shared his experience: "The sales people were very

accommodating and provided the necessary information to help my family make a decision on a home. The show homes are nicely setup, so that you can take a look through them all in a small amount of time. We even received a free Recycle Everywhere bag from Star!"

"Lovely homes, perfect for a big family lots of space," added Mary Fehr, another satisfied client.

The virtual tour technology complements Star's existing customer-centric approach to home building. The company specializes in high-quality, affordable ready-to-move homes that can be transported to a buyer's preferred location. Offering a wide range of stock homes, custom design options, and cottage plans, the company ensures flexibility to meet diverse homebuyer needs.
