

Emulsifiers Market Expected to Surpass US\$ 22.12 Billion With a 7.8% CAGR Forecast By 2025 to 2034

The growing demand for personal care products is driving the market demand.

NEW YORK CITY, NY, UNITED STATES, March 20, 2025 /EINPresswire.com/ -- The emulsifiers market is projected to reach US\$ 22.12 billion by 2034, growing at a CAGR of 7.8% from 2025 to 2034. The market is driven by the increasing demand for personal care products, which are utilizing emulsifiers to improve their texture and stability. The market is expected to grow from US\$ 10.48 billion in 2024 to US\$ 22.12 billion in 2034, with a CAGR of 7.8%.

Emulsifiers are food additives utilized to assist in blending two substances that usually segregate when they are amalgamated. Emulsifiers have one water-loving (hydrophilic) and one oil-loving (hydrophobic) end. When they are appended to an unblended liquid, the emulsifier molecules arrange themselves along the alleged interfacial layer where oil segregates from the water.

The emulsifier is stationed in such a manner that its hydrophilic end points towards the water phase and its

hydrophobic endpoints to the oil phase, rendering it feasible for water and oil to become excellently disseminated in each other. Thus, the emulsifier generates a steady, homogenous and seamless emulsion having a favourable impact on emulsifiers market growth.

Key Market Leaders:

Notable market leaders are funding massively in research and development so as to augment their offerings which will assist the market to grow even more. Leading players in the emulsifiers market include:

- Archer Daniels Midland (ADM)
- BASF
- Cargill Incorporated
- CLARIANT AG
- Corbion N.V.
- Croda International
- Dow Chemical Company
- DSM-Firmenich
- Evonik Industries AG
- International Flavors & Fragrances Inc. IFF

Key Market Drivers:

Pharmaceutical Industry:

Pharmaceutical firms utilize emulsifiers to improve drug-dissolving ability, enhance bioavailability, and ascertain the steadiness of liquid and semi-solid medications. Growing funding is reinforcing the evolvement of biopharmaceuticals and dermatological commodities, both of which rely on emulsifiers for productive expression. For instance, as per the data issued by the India Brand Equity Foundation, the foreign direct investment (FDI) inflows in the Indian drugs and pharmaceuticals sector approached USD 1414 million between FY 2021-2022.

Agrochemical Industry:

Emulsifiers assist generate steady agrochemicals expressions by ascertaining that oil and water dependent ingredients blend evenly which enhances the steadiness and presentation of agrochemical commodities. Farmers and agricultural producers depend on emulsifiers to sanction the uniform dissemination of agile components, causing superior crop coverage and decreased waste, propelling the emulsifiers market sales.

Food Industry:

The market is driven by the acquisition of processed and convenience food. Packaged or processed food makers depend on emulsifiers to enhance texture, prolong shelf life, and sustain product steadiness as consumers look for swift, ready-to-eat meals. Emulsifiers assist generate seamless, alluring textures and prohibit components from segregating which becomes important for packaged or convenience foods that require to stay fresh in the course of conveyance and storage.

Request for Discount Pricing Report:

Report Summary:

The report offers a detailed segmentation of the emulsifiers market based on source, product type, application, and region.

By source, the synthetic emulsifiers segment held the largest market share owing to its extensive usage covering industries such as food and beverages, pharmaceuticals, and personal care. Makers favour these additives for their economy, continuous performance and the capacity to balance intricate expressions.

By application, the cosmetics & personal care segment captured the largest market share owing to the surging demand for skincare, haircare, and beauty commodities. Consumers growingly favor elevated presentation expressions that provide seamless textures, extended steadiness, and improved sensory aesthetics.

Regional Insights:

Asia Pacific: Asia Pacific held the largest emulsifiers market share. This is primarily because of speedy industrialization, the escalating food and beverage sector, and the growing demand for personal care and pharmaceutical commodities. Surging disposable income and altering dietary preferences have caused elevated intake of processed foods, pushing the requirement for progressive emulsifiers.

North America: North America is the fastest-growing region due to the growing demand for clean-label commodities, exclusive personal care commodities, and progressive pharmaceutical expressions. Consumers in the region categorize organic and natural components nudging makers to advance inventive emulsifiers emanated from plant-based sources.

Q:

What are the [emulsifiers market](#) stats?

The market size was valued at USD 10.48 billion in 2024 and is projected to grow to USD 22.12 billion by 2034.

Which are the major market players covered in the emulsifiers market report?

Some of the key players in the market are Archer Daniels Midland (ADM); Cargill Incorporated; CLARIANT AG; Corbion N.V.; Croda International; Dow Chemical Company; DSM-Firmenich; Evonik Industries AG; International Flavors & Fragrances Inc. IFF; Kao Corporation; Kerry Group

plc; Lasenor; Lonza Group AG; Lubrizol Corporation; Nikko Chemicals; Nouryon; Oleon NV; PALSGAARD; Puratos; Riken Vitamin Co., Ltd.; Solvay S.A.; Spartan Chemical; Stepan Company; and Vantage Specialty Chemicals.

What are the opportunities for the market?

The opportunities in the market are the growing acquisition of processed and convenience foods and the growing demand for personal care products.

What is the forecast period of the market?

The forecast period of the market is 2025 to 2034.

Polaris Market Research is a global market research and consulting company. The company specializes in providing exceptional market intelligence and in-depth business research services for PMR's clientele spread across different enterprises. We at Polaris are obliged to serve PMR's diverse customer base present across the industries of healthcare, technology, semiconductors, and chemicals among various other industries present around the world. We strive to provide PMR's customers with updated information on innovative technologies, high-growth markets, emerging business environments, and the latest business-centric applications, thereby helping them always to make informed decisions and leverage new opportunities. Adept with a highly competent, experienced, and extremely qualified team of experts comprising SMEs, analysts, and consultants, we at Polaris endeavor to deliver value-added business solutions to PMR's customers.
