

# Swift drain Delivers High-Performance Trench Drain Systems for Raytheon

*Swift drain has supplied 1,000 linear feet of heavy-duty pre-sloped precast Class E trench drains for a state-of-the-art bomb bunker at 8920 Raytheon Parkway.*

TUCSON, AZ, UNITED STATES, March 20, 2025 /EINPresswire.com/ -- [Swift drain](#), a leading provider of drainage systems, was recently awarded a contract by Northwest Construction to design and deliver a high-performance drainage system for a bomb bunker at 8920 Raytheon Parkway. The project involves the development of over 1,000 linear feet of heavy-duty class E precast trench drain designed to withstand the most demanding conditions.

The project is being completed in two phases, with Swift drain successfully delivering the first and second phase. Installation has been progressing smoothly, according to all those involved.

“

We appreciate the trust that Raytheon and Northwest have in Swift drain, their six-figure advanced investment expressed a high level of confidence in us, and we delivered.”

*Ankit Sehgal*

Ankit Sehgal, CEO of Swift drain, expressed his appreciation in partnering with two industry leaders on this project. “We appreciate the trust that Raytheon and Northwest have in Swift drain, their six-figure advanced investment expressed a high level of confidence in us, and we delivered.”

Swift drain has a proven track record of providing high-performance trench drain systems for leading defense and aerospace organizations, including the U.S. Air Force, U.S. Space Force and Department of Energy. This latest

collaboration with Raytheon and Northwest Construction further cements Swift drain’s reputation as a trusted partner in complex and mission-critical defense projects.

With a focus on customer success, Swift drain continues to lead the way in delivering drainage solutions that perform in the toughest environments.

About Swift drain: Swift drain is one of the leading providers of high-performance drainage systems in the United States.
