

This Week in Construction: Top Innovations & Industry Trends – March 20, 2025

Peer-to-peer digital content sharing for construction and building professionals

SUNDRE, ALBERTA, CANADA, March 20, 2025 /EINPresswire.com/ -- Since its establishment in 2003, Construction Links Network has emerged as a premier news and information hub in the construction sector. With a commitment to enhancing the digital presence and search engine visibility of its members, Construction Links Network has become an indispensable resource for a wide array of professionals. This includes construction managers, contractors, developers, building and property managers, architects, designers, engineers, and government officials.

As a dynamic hub for digital content dissemination, Construction Links Network offers its members diverse engagement opportunities through news releases, company announcements, blogs, podcasts, webinars, case studies, whitepapers, and videos.

This week's featured video is courtesy of Helmets to Hard Hats Canada, a vital organization dedicated to supporting Canadian Veterans and transitioning military members as they enter careers in the skilled trades. Trent Soholt, Executive Director of the Nova Scotia Construction Sector Council (NSCSC), understands firsthand the immense value that Veterans bring to the construction industry. With their discipline, leadership, and problem-solving skills, they are well-suited for careers in construction - an industry that thrives on teamwork, precision, and adaptability. Helmets to Hard Hats Canada works alongside organizations like NSCSC to provide training, certifications, and hands-on experience, ensuring that military personnel have the skills they need to succeed in civilian trades. This not only helps Veterans find meaningful, long-term

careers but also strengthens the construction industry by addressing the skilled labor shortage. By connecting highly motivated individuals with rewarding job opportunities, Helmets to Hard Hats Canada is making a lasting impact on both the lives of Veterans and the future of Canada's construction workforce. Together, we can support our Veterans while strengthening the skilled trades.
