- Screenings - Nutrition, HIV, Cancer
- Evangelist Outreach to every attendee

As seen on

Announcement for Medical Camp put on by Amigos Internacionales

Through this collaboration, Charity Vision International will provide 100 free cataract surgery sets, enabling the medical team to perform these procedures at no cost to patients. Doctors on Mission, as the primary partner, will play a critical role in overseeing the medical execution of the surgeries, providing expertise and logistical support.

“

Our goal is to bring physical healing through medical care while also offering spiritual hope through the message of Jesus.”

*Michael E Ryer*

"This is a true blessing. God keeps surprising us," said Michael Ryer, CEO, Amigos Internacionales. "Partnering with Doctors on Mission and Charity Vision International gives us the incredible opportunity to restore sight to 100 people who would otherwise face a life of blindness. This is

about giving hope and transforming lives."

The three-day medical camp will offer free treatment to over 5,000 villagers, supported by a team of over 100 doctors, specialists, and support staff. In addition to cataract surgeries, the

camp will provide general medical consultations, maternal and child health services, dental care, and health education.

As part of the outreach, Amigos Internacionales will also share the gospel message with the villagers. While waiting for treatment, attendees will have the opportunity to watch the Jesus film and learn about the message of hope and salvation through Christ. The evangelistic mission is a core part of the camp's goal to not only heal physically but also bring spiritual renewal to the community.

"I am so glad to be part of this story. It is just the beginning. I can't wait for what God is about to do. He is going to show off on us. He is going to show us that this is His camp not ours" said Dr. Paul Mulyamboga, head of Doctors on Mission, International. "Our goal is to bring physical healing through medical care while also offering spiritual hope through the message of Jesus."

About Amigos Internacionales

Amigos Internacionales is a nonprofit organization dedicated to improving health, education, and community development through sustainable programs and strategic partnerships.

The organization operates medical camps and outreach programs to serve underserved communities in Uganda and beyond.

About Doctors on Mission

Doctors on Mission is a medical outreach organization providing healthcare services to underserved communities. Through partnerships with local and international organizations, they deliver high-quality medical care and training to improve health outcomes in remote areas.

About Charity Vision International

Doctors working on villagers at Medical Camp at Amigos Internacionales

Children at Ogul Village with Dr. Paul

Charity Vision International is a global nonprofit focused on restoring vision to the blind and visually impaired. Through partnerships with local healthcare providers, they work to provide free eye care services and surgeries to those who cannot afford them.
