

Gene Test Your Meds: Personalized Medication Management Now Available in Washington, D.C.

A simple cheek swab unlocks personalized prescriptions, reducing risks & optimizing treatment.

WASHINGTON, DC, DC, UNITED STATES, March 21, 2025 /EINPresswire.com/ -- MAT Recovery Centers is introducing [Gene Test Your Meds](#), an innovative genetic testing service that helps patients optimize their medication regimens. With a simple cheek swab, this test evaluates an individual's genetic makeup to identify the most effective medications while reducing the risk of adverse reactions, side effects, and mismatched prescriptions.

Revolutionizing Medication Safety with Genetic Testing

The Gene Test Your Meds technology provides personalized medication recommendations by analyzing how an individual's genes interact with different drugs. This approach ensures that prescriptions are tailored to each patient's unique biology, maximizing treatment benefits while minimizing risks.

Medication-Assisted Treatment

"Medication management shouldn't be a guessing game," said Ed LeTourneau, Founder and CEO of MAT Recovery Centers. "This test provides patients with the knowledge they need to take the right medications in the right doses, ensuring safer and more effective treatment plans."

Benefits of Gene Test Your Meds:

- Analyzes genes to understand medication interactions
- Personalizes prescriptions to improve effectiveness
- Reduces mismatched medications and incorrect dosages
- Minimizes adverse drug events and side effects
- US Patented, HIPAA-compliant, and FDA-approved
