This delightful addition to the PD the Pug series reimagines treasured fairy tales featuring none other than PD. Fanciful, humorous, and original, this storybook puts its own PD twist on beloved stories and introduces readers to characters such as The Ugly Pugling, The Pug Piper, Pug-occhio, and more. From wee ones to grandparents, everyone's bedside table needs Furry Fairy Tales! It's the

new go-to book for bedtime reading!

Excerpt from the book:

"As I drift away to Slumberland, far from Mommy's soft voice, far from my worries over Ralph,

the last thought I have is that I could write a better version of this tale . . . a version that casts me as the hero and Ralph as the vanquished villain and ends with my secret fawn girl crush and me living happily ever after. In fact . . . I bet I could write better versions of every fairy tale ever written. They'd be the most fantastical fables from the most masterful make-believe manufacturer:

me! I'll be PD the Pug, the Bard of Bedtime.

So, all you humans, come snuggle up to PD, and I'll tell you a story. . ."
