

# The Villarreal Law Firm is Proud to Announce Blog Content on What to Do After a Car Accident in the Rio Grande Valley

*Learn how Texas car accident victims can build a strong case with evidence and the help of Villarreal Law Firm.*

BROWNSVILLE, CA, UNITED STATES, April 1, 2025 /EINPresswire.com/ -- The Villarreal Law Firm, a

“

Knowing what to do after a car accident is important; knowing one's legal rights, especially after an injury, is just as important for the long term.”

*Javier Villarreal*

top-rated [personal injury](#) and [car accident](#) law firm in Brownsville, Texas, is proud to announce its latest informative blog post aimed at client education. The post, entitled “A Step-by-Step Guide After a Car Accident,” is an invaluable resource that outlines everything from the immediate medical care a car accident victim should receive to how to collect evidence, ensuring that the victim knows what they should do after an accident. All of this is essential should one decide to retain a car accident lawyer to fight for compensation due to injury or property

damage.

Javier Villarreal, personal injury lawyer in Brownsville, Texas.

Here is background on this release. Interested persons can read the full post at <https://jvlawfirm.net/why-hire-a-car-accident-attorney-we-have-answers/>. The post responds to frequently asked questions to help car accident victims understand what to do following an accident. The blog post underlines the need to prioritize your well-being should there be potential injuries such as whiplash, broken bones, or bruises. It also tells victims that the Villarreal Law Firm will work on the financial side of things, and that medical bills will be put off until the claim is settled. This financial peace of mind is just one of the many advantages of reaching out to a Brownsville car accident attorney shortly after an accident occurs.

Furthermore, the post outlines how accident victims can help build their case. Evidence from the scene — photographs of car damage, license plates, even photographs of injuries — can be important in supporting a successful claim. In addition to helping clients obtain police reports, the Villarreal Law Firm also works with insurance companies to ensure they achieve the best settlement possible. The post also highlights the need to document the many effects of an accident, from missed work and needing a rental car to physical symptoms like headaches and

dizziness.

Javier Villarreal, who works as a lead attorney at that firm, believes it is important to remain in control over who makes the choices. Although his team will handle the legal complexities, clients still call the shots, deciding whether to accept a settlement or file for court action if the offer doesn't fully cover their damages. This enables the clients to stay informed yet make empowered decisions throughout the legal journey. In this way, retaining a personal injury lawyer can be an excellent synergy between one's own decisions and the informed advice of counsel.

It also lists statistics regarding car accidents in Texas, including that one person is injured every two minutes and nine seconds, according to a report that ProCare Medical Center published reporting severe injuries. According to the National Highway Traffic Safety Administration (NHTSA), 94% of car accidents result from human behaviors, making it even more important for people to know safe driving habits.

At the Villarreal Law Firm, the attorneys believe that everyone injured in a car accident in the Rio Grande Valley is entitled to compensation. Clients can navigate this complex legal system and advocate for a fair settlement if they follow the blogs advice and work with an experienced attorney. Interested persons can learn more at <https://jvlawfirm.net/practice-areas/personal-injury/> or reach out for a free consultation.
