LONDON, GREATER LONDON, UNITED KINGDOM, March 25, 2025

/EINPresswire.com/ -- What Is the Anticipated Growth Rate and Market Size of the Global [Cholangiocarcinoma Market?](#)

The cholangiocarcinoma market size has grown rapidly in recent years. It is projected to rise from \$0.55 billion in 2024 to \$0.63 billion in 2025 reflecting a compound annual growth rate CAGR of 13.4%. This growth can be attributed to the increasing incidence of liver and bile duct cancers, rising awareness about rare cancers, a growing focus on personalized treatment, a rise in immunotherapy approaches, and a rising geriatric population.

What are the Key Drivers Stimulating the Growth of the Cholangiocarcinoma Market?

A critical growth driver in the cholangiocarcinoma market is the increasing incidence of liver disease. This refers to any condition impeding the normal function or structure of the liver, including hepatitis, cirrhosis, fatty liver disease, and liver cancer. The incidence of such diseases is on the rise due to risk factors like obesity, diabetes, alcohol consumption, and viral hepatitis infections. The impact of liver disease, especially chronic inflammation and cirrhosis, on promoting bile duct damage and malignant cell transformation has been directly linked to an increase in cases of cholangiocarcinoma.

Who are the Key Industry Players in the Cholangiocarcinoma Market?

The Business
Research Company

The Business Research Company

The cholangiocarcinoma market showcases several leading companies including F. Hoffmann-La Roche Ltd, Merck & Co. Inc., AbbVie Inc., Bristol-Myers Squibb Company, AstraZeneca PLC, Novartis AG, Takeda Pharmaceutical Company Limited, Eli Lilly and Company, Boston Scientific Corporation, Servier Laboratories, Incyte Corporation, Exelixis Inc., Hutchison China MediTech Limited, Zymeworks Inc., Agios Pharmaceuticals Inc., RenovoRx Inc., Specialised Therapeutics Pty Ltd, Ascletis Pharma Inc., Tiziana Life Sciences Ltd., and Taiho Pharmaceutical Co. Ltd.

What Emerging Trends Are Impacting the Cholangiocarcinoma Market?

Notably, companies in the cholangiocarcinoma market are focusing on developing new treatments, such as targeted therapies, to improve treatment results for patients. These therapies aim to inhibit the specific genes, proteins, or molecules that aid cancer cell growth. This not only hampers tumor growth but also reduces side effects and enhances treatment outcomes. For example, in August 2023, Japan-based Taiho Pharmaceutical Co. Ltd. launched LYTG0BI futibatinib, an FGFR inhibitor for treating unresectable biliary tract cancer with FGFR2 gene fusions. This is designed to selectively and irreversibly inhibit FGFR signaling, thus slowing tumor growth and improving outcomes in patients with cholangiocarcinoma iCCA progressing after chemotherapy.

How Is the [Global Cholangiocarcinoma Market Segmented?](#)

- 1 By Cancer: Intrahepatic Cholangiocarcinoma, Extrahepatic Cholangiocarcinoma
- 2 By Product: Capecitabine, 5-Fluorouracil, Oxaliplatin, Gemcitabine, Cisplatin
- 3 By Therapy: Targeted Drug Therapy, Chemotherapy, Immunotherapy
- 4 By Route Of Administration: Oral, Subcutaneous, Intravenous
- 5 By Distribution Channel: Hospital Pharmacies, Retail Pharmacies, E-Commerce

What Are the Regional Insights Into the Cholangiocarcinoma Market?

North America emerged as the largest region in the cholangiocarcinoma market in 2024. However, the report provides comprehensive coverage of all the regions including Asia-Pacific, Western Europe, Eastern Europe, North America, South America, Middle East, and Africa.
