Rapid weight loss and a new exercise routine could cause the skin to loosen around the middle. Cosmetic stomach surgery might help men reveal the hard work and those abs hidden under fat.

"Women aren't afraid to ask about tummy tuck surgery.

It's a very normal procedure for females. Men may not know it's a great option for them, too," stated Dr. Ariel Ourian, a double-board certified plastic surgeon. "We encourage the male population not to be shy and speak with us about it. It could be the right answer to flabby, unattractive skin around their midsection."

MALE TUMMY TUCKS IN LOS ANGELES ARE MORE NORMAL THAN MEN MIGHT THINK

Here is the background on this release. Cosmetic surgery in the Los Angeles area may not be a novel idea. Women can frequently seek out a top surgeon for body sculpting, liposuction, or a tummy tuck. Indeed, the surprising aspect of cosmetic surgery might be that men can access similar procedures. The male tummy tuck can help men remove loose skin around the stomach and enhance well-exercised muscles underneath. An expert surgeon in Beverly Hills can help both men and women reveal a healthier-looking stomach.
