

NovaCHARGE Named Preferred Vendor for a Major Florida Hospital System, Providing Reliable EV Charging Solutions

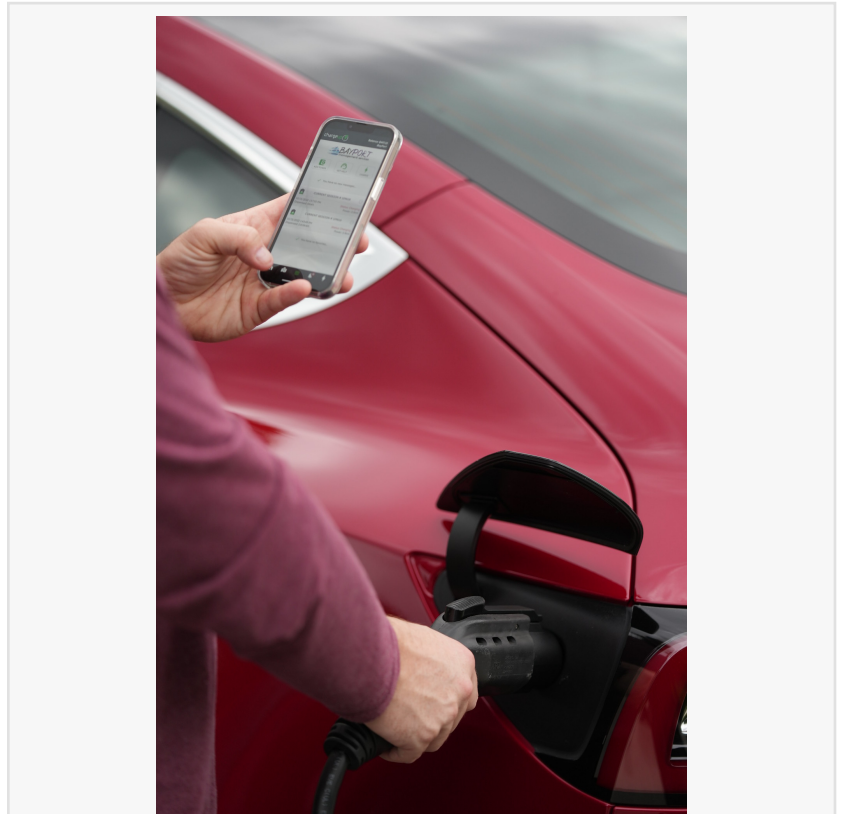

NovaCHARGE Selected as Preferred Vendor for Florida Hospital System, Offering Reliable EV Charging Solutions

ORLANDO, FL, UNITED STATES, March 26, 2025 /EINPresswire.com/ -- [NovaCHARGE](#), a leader in providing electric vehicle (EV) charging infrastructure, is proud to announce its new status as the preferred vendor for a major Orlando hospital network. As part of this partnership, NovaCHARGE has been entrusted with providing reliable, high-performance [Level 2](#) EV chargers at several of the hospital's locations, ensuring that staff, patients, and guests have convenient access to charging solutions during their visits.

NovaCHARGE has already successfully installed multiple Level 2 charging stations across the hospital network, allowing EV drivers to easily charge their vehicles while receiving care or visiting loved ones. By providing this valuable amenity, NovaCHARGE helps reduce one of the many stressors

associated with a trip to the hospital, making it easier for patients, visitors, and staff to focus on what matters most—health and well-being.

“We pride ourselves on our reliability and the ability to provide charging solutions that people can count on—whether they are staff who need to get to work, or families and patients who need to stay focused on their health. Our Level 2 chargers are designed to ensure that everyone

can depend on fast, efficient, and hassle-free charging while they are at the hospital,” said Oscar Rodriguez, CEO of NovaCHARGE.

Key Benefits of the Partnership:

- **Commitment to Reliability:** NovaCHARGE’s Level 2 chargers are known for their high performance and dependable operation, with [NovaBOT](#) software being the key driver behind their reliability. This advanced software ensures fast and efficient charging, making the stations some of the most dependable DC Fast Charging solutions, even in the most challenging environments. NovaBOT enhances both charging reliability and operational efficiency, ensuring a seamless experience for EV drivers.
- **Enhanced Visitor and Staff Experience:** The installation of Level 2 chargers across multiple hospital locations makes it convenient for staff and guests to charge their EVs, easing the stress of parking and ensuring that they can go about their visit with one less concern.
- **Sustainability and Green Initiatives:** The hospital is actively supporting sustainable practices by promoting the use of electric vehicles, helping to reduce its carbon footprint while offering a modern amenity that meets the growing demand for EV charging.
- **Convenience and Peace of Mind:** With reliable charging stations installed, hospital visitors and staff can rest assured that they will have access to the power they need when they need it, minimizing any added stress during an already challenging time.

Whether for routine charging or emergency response operations, NovaBOT ensures that EVs are charged quickly and reliably. NovaBOT optimizes every charging cycle to maximize uptime, ensuring dependable performance in even the most demanding hospital environments. This reliability is essential for hospitals, where consistent energy access is critical for patient care and emergency operations.

NovaCHARGE’s Level 2 chargers are designed to be user-friendly and quick, providing a reliable, high-quality charging experience that fits seamlessly into the busy and dynamic environment of a hospital. This partnership represents a continued effort to provide valuable, sustainable, and efficient amenities to improve the overall experience for staff and visitors alike.

About NovaCHARGE
