Diverse Flavor Profiles to Satisfy Modern Palates!

The four flavors introduced in the new roasted foxnuts line have been carefully developed to appeal to a wide range of taste preferences among American consumers:

* **BBQ:** Drawing inspiration from America's beloved barbecue tradition, this variant features a smoky, tangy flavor that captures the essence of a classic cookout while maintaining a healthful profile.

* **Organic Mint:** Offering a refreshing twist, the Organic Mint flavor provides a cool, crisp taste that sets it apart from conventional snack flavors. This variant is designed to be both invigorating and subtle, making it a perfect complement to a variety of meals.

* **Sea Salt Caramel:** Blending the rich, buttery sweetness of caramel with the delicate balance of sea salt, this flavor elevates the traditional foxnuts snack into a gourmet treat. The Sea Salt Caramel option is ideal for consumers seeking a touch of luxury in their everyday snacking.

* **Chili Limon:** For those who crave a bit of heat, the Chili variant delivers a bold, spicy kick that awakens the senses. This flavor is targeted toward adventurous snackers who appreciate an extra burst of flavor without compromising on nutrition.

Each variant is meticulously crafted to preserve the inherent qualities of makhana—being high in protein, fiber, and antioxidants, while remaining gluten-free, low-calorie, and vegan-friendly.
