LONDON, GREATER LONDON, UNITED KINGDOM, March 27, 2025

/EINPresswire.com/ -- The [nocturia market size](#) has grown significantly in

recent years. It is estimated to rise from \$2.87 billion in 2024 to \$3.11 billion in 2025, reflecting a compound annual growth rate CAGR of 8.4%. This expansion in the historic period can be credited to a growing incidence of cardiovascular diseases, an increase in cases of insomnia, a rising elderly population, heightened awareness of nocturia and its correlated conditions, and a surge in comorbidities.

What Factors will Fuel the Growth of the Nocturia Market Going Forward?

The nocturia market size is expected to witness robust growth in the coming years. It is projected to reach \$4.23 billion in 2029, growing at a compound annual growth rate CAGR of 8.0%. The forecast period will see growth driven by factors such as rising prevalence of bladder obstruction disorders and urinary tract inflammation, increasing occurrence of nocturia due to various risk factors, a high intake of fluids contributing to nocturia, greater awareness of the connection between nocturia, sleep disorders and kidney health, and a growing elderly population. Other factors contributing to growth include advancements in diagnostics, new drug development, increased research and investment in nocturia treatments, improvements in surgical and non-surgical treatments, and the adoption of personalized medicine.
