growing market size of salivary gland infections can be traced back to the increase in oral health issues, a heightened understanding of salivary disorders, and surging number of bacterial and viral infections. Factors such as expanding healthcare infrastructure, rising geriatric population, and increased adoption of minimally invasive treatments have also contributed to this robust growth.

Is the Salivary Gland Infection Market Set to Witness

Substantial Growth?

Fast forward to the next few years, and the market is anticipated to surge from \$4.46 billion in 2025 to \$6.09 billion in 2029, growing at a CAGR of 8.1%. This quick advancement can be attributed to the rising awareness about oral health, growing acceptability of minimally invasive procedures, and increasing prevalence of salivary gland infections due to chronic conditions. Additionally, improvements in healthcare infrastructure and the expansion of patient access to specialized care will further propel the market growth.

What Drives The [Salivary Gland Infection Market Growth](#)?

As oral health issues become increasingly prevalent, they are significantly driving the growth of the salivary gland infections market. These health issues include conditions such as tooth decay, gum infections, and a myriad of other mouth-related problems. Poor oral hygiene, unhealthy eating habits, and inadequate dental care access are amongst the primary factors contributing to these rising oral health problems. One of the significant repercussions of deteriorated oral health is that it raises the risk of salivary gland infections by fostering bacterial growth and blockages in the salivary ducts.

Who Are The Key Players In The Salivary Gland Infection Market?

Major global companies active in the salivary gland infection market include Pfizer Inc., Johnson & Johnson, Roche Holding AG, Merck & Co. Inc., AbbVie Inc., AstraZeneca plc, Novartis AG, GSK plc, Eli Lilly and Company, Gilead Sciences, Inc., Amgen Inc., FUJIFILM Holdings Corporation, Teva Pharmaceutical Industries Ltd., Boehringer Ingelheim GmbH, Astellas Pharma Inc., Sandoz International GmbH, Vertex Pharmaceuticals Incorporated, Incyte Corporation., Hikma Pharmaceuticals PLC, Lupin Pharmaceuticals Inc., Ionis Pharmaceuticals Inc., Vanda Pharmaceuticals Inc., Mylan N.V., Zydus Cadila Healthcare Ltd.

Who Are The Key Players In The Salivary Gland Infection Market?

These leading corporations are primarily focusing on technological advancements, primarily in minimally invasive procedures. Their goal is to improve treatment outcomes, speed up patient recovery, and enhance overall healthcare efficiency. Case in point, in March 2024, Amrita Hospital, an India-based healthcare institution, launched the Amrita Centre for minimally invasive salivary gland surgery.
