At the Grand Opening, Wellness Visions Founder Dr. Jennie Hsu, MD, announced a new EESystem clinical study, Quantum Wellness Transformation 2, to study how 100 hours in the new 48-unit EESystem can help individuals make quantum shifts in their health and wellness. Her first

clinical study, "Quantum Wellness Transformation Study," showed DNA evidence of age reversal of 3.44 years in participants in 52 hours of the prior 24-unit with improvements in biometric, metabolic testing, and quality of life. Dr. Hsu presented her results at the recent Longevity Fest 2024, organized by the [American Academy of Anti-Aging Medicine \(A4M\)](#), on December 13-15, 2024, in Las Vegas, NV.

"I'm excited to bring the 48-unit EESystem to the SF East Bay community, which has 4-10x the power of our original 24-unit. This upgrade will improve the potential for increasing your energy, healing your body, and making quantum shifts in consciousness," says Dr. Hsu.

The EESystem, invented by Dr. Sandra Rose Michael, PhD, DNM, DCSJI, holistic doctor and healer and integrative bio-physicist, uses custom-installed computers to generate morphogenic energy fields that can promote healing. The multiple bioactive life-enhancing energy fields, including scalar waves, can allow for cell regeneration, improve immune function, relieve pain, detoxify the body, elevate moods, and assist in balancing the right and left hemispheres of the brain to increase energy levels. The EESystem has been installed throughout the U.S. and globally in 750 centers and has been recognized at dozens of medical, scientific, and professional international conferences. It is used by individuals, doctors, therapists, and meditation and wellness centers to improve human development and psychological well-being.

Dr. Jennie Hsu also announced the launch of a new on-site health procedure in longevity and cellular rejuvenation known as "SONG" Laser, invented by Dr. Todd Ovokaitys, and the clinical studies conducted at the center. This procedure will magnify and synergize with the EESystem to promote health, healing, and longevity. [Dr. Ovokaitys](#) is a pioneer in revolutionizing regenerative medicine. His technology redefines how stem cells are being used to rejuvenate tissue, treat chronic conditions, and enhance overall health outcomes.
