

SKYNAV Launches 'navi': The First-of-Its-Kind AI-Powered Trip Planner Inside Immersive Destination Tours

Transforming the Way Travelers and Planners Explore, Plan, and Book with Seamless AI Integration

SAN FRANCISCO, CA, UNITED STATES, April 1, 2025 /EINPresswire.com/ -- SKYNAV, a leader in immersive travel technology, is thrilled to unveil “navi”, a revolutionary AI trip planner seamlessly embedded within all SKYNAV destination tours. Designed to deliver an immersive end-to-end booking experience, navi harnesses the power of OpenAI’s technology to personalize, optimize, and streamline travel planning like never before.

“This is Next-level innovation for the travel industry,” said Ty Downing, COO of SKYNAV. “For the first time, we’ve integrated an AI-powered planner directly inside an immersive experience, allowing travelers to not only explore but also plan and book their trips effortlessly. This innovation will significantly increase time on site, drive partner, sporting, and event venue bookings, and boost conversions.”

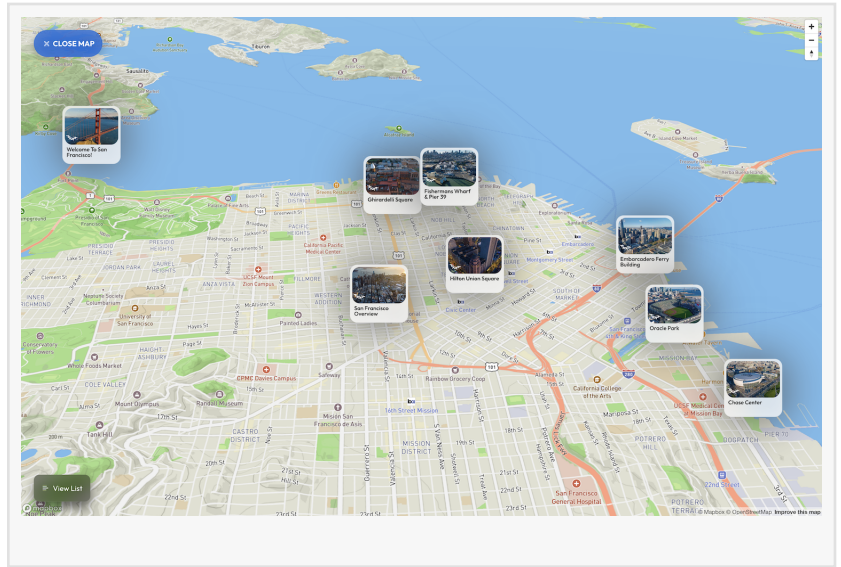

Next-Level AI-Powered Travel Planning:

With navi, SKYNAV takes virtual exploration beyond just viewing – it transforms discovery into action. This intelligent trip planner curates personalized recommendations based on user behavior, location, and travel preferences, ensuring seamless and engaging itinerary building.

Key [features of navi](#) include:

- AI-Powered Travel Recommendations – Experience dynamic, intelligent suggestions tailored to user interests and real-time interactions.
- Destination-Curated Suggestions – Discover top-rated attractions, restaurants, and experiences hand-picked for each location.
- Powerful Custom Itineraries – Effortlessly build personalized travel plans with AI-driven optimization.
- Interactive Maps and Links – Navigate destinations with ease using detailed, real-time maps and direct links to booking options.
- End-to-End Travel Booking – Move from inspiration to reservation in one seamless experience, eliminating the hassle of trip planning.
- Included with All SKYNAV Tours – No additional downloads, apps, or third-party tools required – navi is built directly into SKYNAV’s cutting-edge platform.

“

This is Next-level AI innovation for the travel industry”

Ty Downing, COO SKYNAV

Proprietary AI-Powered Insights:

What makes navi truly groundbreaking is its context-aware intelligence. Using advanced location-aware logic, navi dynamically delivers hyper-relevant recommendations

based on the scene the user is currently viewing. Whether exploring a cityscape, beachfront resort, or historic landmark, navi adapts in real time to enhance user engagement and maximize trip potential.

Travelers can ask the AI chatbot questions about the tour’s location and receive instant, precise responses based on real-time scene and destination insights.

"navi is the next-gen travel planner designed especially for destinations and will make its official debut at [Simpleview Summit](#), held in San Francisco, CA, from April 6-9, 2025" said Downing.

[SKYNAV is also launching](#) an enhanced 2.0 upgrade to its current platform that elevates interactive travel exploration to an entirely new level. The redesigned platform introduces deeper 3D mapping and a bold new look with smarter, more intuitive navigation.

What’s New in SKYNAV 2.0?

- Next-Gen 3D Mapping – Get lost in hyper-realistic, high-definition 3D models that bring destinations to life like never before.

- Smarter, More Intuitive Navigation – A sleek and intelligent interface makes it easier to explore, plan, and interact.
- Fully Immersive Journey Visualization – Move beyond traditional maps and step into destinations as if you were there.

SKYNAV 2.0 is built for the future of travel, combining immersive exploration with powerful AI-driven functionality. With navi and SKYNAV 2.0, the way we explore, plan, and book travel will never be the same again.
