The global market for Tenofovir Disoproxil has seen substantial growth and is expected to continue this trend. The market size, which stood at \$3.58 billion in 2024, is expected to rise to \$3.79 billion in 2025, reflecting a compound annual growth rate CAGR of 5.9%. Factors

“

It will grow to \$4.72 billion in 2029 at a compound annual growth rate (CAGR) of 5.6%.”

*The Business Research Company*

contributing to this growth include increased awareness and early detection of viral infections, a rise in Hepatitis B cases, expansion of generic drug manufacturing for Tenofovir Disoproxil, an increasing number of clinical trials supporting Tenofovir efficacy, and growing healthcare funding for infectious disease treatment.

Is the Tenofovir Disoproxil Market Set to Witness

Substantial Growth?

The Tenofovir Disoproxil market is projected to continue its strong growth trajectory in the coming years, scaling up to reach \$4.72 billion by 2029 at a compound annual growth rate CAGR of 5.6%. Forecasted growth is attributed to rising demand for long-acting Tenofovir formulations, increasing focus on combination therapies with newer antivirals, rising regulatory approvals for novel Tenofovir combinations, emphasis on pediatric formulations of Tenofovir, and the increasing demand for Tenofovir in post-exposure prophylaxis.

## What Drives The Tenofovir Disoproxil Market Growth?

The growth of the Tenofovir Disoproxil market is largely impelled by the increasing prevalence of HIV and AIDS. HIV and AIDS are chronic viral infections that weaken the immune system by attacking CD4 cells, leaving the body susceptible to infections and diseases. Various factors like unprotected sexual contact, lack of awareness, limited access to healthcare, and drug-resistant virus strains drive the increasing prevalence of HIV and AIDS, consequently creating a higher demand for Tenofovir Disoproxil, a key antiretroviral drug used for treatment and prevention.

Similarly, growing cases of Hepatitis B infection are anticipated to propel the Tenofovir Disoproxil market. Hepatitis B is a viral infection that attacks the liver and could lead to acute and chronic diseases. Tenofovir Disoproxil is utilized to treat chronic hepatitis B and inhibit the viral replication to decrease liver damage.
