

Isidore Quantum® Wins 2025 FLC National Award for Excellence in Technology Transfer Award

SAN ANTONIO, TX, UNITED STATES, April 2, 2025 /EINPresswire.com/ -- Forward Edge-AI, Inc. today announced that the National Security Agency (NSA) and Forward Edge-AI Technology Transfer Team have been awarded the 2025 Federal Laboratory Consortium (FLC) Award for Excellence in Technology Transfer for the successful commercialization of the NSA's Protocol-Free

This award is a powerful validation of what happens when American innovation meets mission urgency. We're honored to partner with the NSA to bring Isidore to the national defense community."

Eric Adolphe, CEO Forward Edge-AI, Inc.

Encrypting Device (PFED), being sold commercially as Isidore Quantum®. The FLC Award recognizes transformative federal research that accelerates innovation into real-world applications—in this case, a post-quantum encryption solution designed to secure American defense, intelligence, and infrastructure in every operational domain.

Isidore Quantum® is the first post-quantum encryption platform tested and validated across all four operational domains—Air, Land, Sea, and Space.

From securing telecommunications on Earth to encrypting

low-Earth orbit satellites, Isidore Quantum has redefined what military-grade encryption can—and must—be in the quantum era.

The platform's key differentiators include:

- Autonomous, AI-powered encryption with self-rekeying, self-zeroization, and machine-learning threat detection.
- No key loaders. No certificates. No export restrictions.
- Protocol, device, and network agnostic, operating seamlessly across MIL-STD, SATCOM, IoT, and legacy IP infrastructures.
- Compact, energy-efficient form factor—comparable in size to a credit card.

The award will be presented at the 2025 FLC National Meeting on May 14, 2025, representing a national milestone in translating innovation into commercially scalable, mission-ready capabilities.

About Forward Edge-AI, Inc.

Founded in 2019 and headquartered in San Antonio, Texas, Forward Edge-AI, Inc. is a next-generation technology company specializing in AI-powered, mass market safety and security solutions. Its flagship product, Isidore Quantum[®], leads the post-quantum [cybersecurity](#) frontier with strategic partnerships including the NSA, Microsoft, Lumen Technologies, Cubic Corporation, and Rogue Space Systems.
