

# Paradise Plans to Build A Metaverse Paradise Modeled After Paradise

ST. PETERSBURG, FL, UNITED STATES, April 1, 2025 /EINPresswire.com/ -- In the latest twist on its [martech](#) innovation, award-winning Paradise has ventured into the virtual destination world with an exclusive, first-of-its-kind [metaverse](#) community called "ParadiseParadiseParadise."

Not unlike the wildly popular series by the same name, nothing is as it seems: twists, romance, betrayal, alliances, and ambition drive the digital narrative. As a member of this community, you'll decide your fate — will you rise to the top, become a legend of ParadiseParadiseParadise, or simply savor the escapism? Indeed, just another day in Paradise.

“

What better way to figure out our own existential Paradise than by creating an impassioned phygital community?”

*Barbara Karasek*

“Our fast-changing worlds are so integrated, and at the same time fluid, that what is real is nuanced,” said Barbara Karasek, CEO and Co-Owner of Paradise and Chief Metaverse Officer of soon to be launched ParadiseParadiseParadise, a metaverse destination experience. “What better way to figure out our own existential Paradise than by creating an impassioned phygital community? We believe everything's going to be looked at from here on as a metaverse for everyone. We

hope this will become the three Ps of the Metaverse world.”

ParadiseParadiseParadise plans to be a sprawling, immersive digital world designed to mirror the vibrant and unpredictable energy of the show. Built on blockchain technology, this virtual destination offers users a hyper-realistic escape where fantasy and reality blur. With limitless experiences and opportunities for connection, while underlying themes of trust, power, and survival mirroring the show's own, ParadiseParadiseParadise offers an exhilarating second life in a digital utopia, sprinkled with the requisite challenges.

"It's a privilege to collaborate with Paradise on the exciting journey of bringing visitors to ParadiseParadiseParadise — a place where getting lost is part of the adventure and imagination knows no bounds," said Sarah Steel, Head of Strategic Partnerships for SPVCE. The company offers brands and IP holders an all-in-one platform to ideate, create, build, launch, and foster communities around metaverse experiences and is the mastermind behind the Nolaverse, LCX (a soon to be announced project with Lincoln Center) as well as early iterations of the TSX Broadway experiences, among others. "After all, why choose just one paradise when you can double-tap into two? Or three? Who needs reality when you can jump into a completely immersive, AI-driven version of endless possibility?"

Ready to step into the world of ParadiseParadiseParadise? Watch this video for a taste of what's to come. For now, the vision for the metaverse destination can be accessed by visiting the website. The only limit is your imagination.

"As just another day in Paradise, we couldn't have picked a better day to share our vision with the world. I am so excited to say soon that "We built this city," Karasek said.

#### About ParadiseParadiseParadise

ParadiseParadiseParadise is a decentralized virtual world on the Ethereum blockchain and open to everyone. This imaginary, immersive digital utopia lets future users explore, socialize, and create in a vibrant, idyllic environment. From bespoke interactive experiences to exclusive NFTs and gamified activities, the phygital realm brings drama and allure to life. With blockchain-powered ownership and transparent transactions, users can compete in challenges, attend virtual events, or curate paradisiacal properties. ParadiseParadiseParadise offers a dynamic Web3 space where fans and creators shape their own desires within a virtual paradise.
