

PINpoint and Aero NextGen Forge Partnership to Elevate Quality and Efficiency in Aerospace MRO

Driving Digital Transformation and Operational Excellence in Aerospace MRO

BURLINGTON, ON, CANADA, April 3, 2025 /EINPresswire.com/ -- PINpoint Information Systems, a leader in Manufacturing Execution System (MES) solutions, is proud to announce a strategic partnership with Aero NextGen, a trusted partner for aviation MRO software, providing scalable aviation solutions to leading airlines, MROs, and aviation businesses. This collaboration aims to enhance efficiency, quality, and process control within the aerospace MRO sector by integrating PINpoint's advanced MES technology with Aero NextGen's expertise in digital workflows and operational excellence.

In the [aerospace MRO industry](#), precision, compliance, and efficiency are paramount to ensure aircraft safety and operational readiness. Implementing a [robust MES](#) system is crucial, enabling MRO providers to track, manage, and optimize every aspect of maintenance and repair processes. A key benefit of a robust MES is controlling execution and enforcing a repeatable process that ensures consistent quality and operational discipline. By partnering with Aero NextGen, PINpoint seeks to drive digital transformation in MRO operations, helping aerospace companies streamline workflows, reduce downtime, and maintain strict regulatory compliance through real-time, data-driven decision-making.

Both PINpoint and Aero NextGen will be exhibiting at [MRO Americas 2025](#), scheduled from April 8-10 in Atlanta, Georgia. Attendees can explore PINpoint's MES platform (Booth #2806) and Aero NextGen's innovative solutions, designed to revolutionize aerospace MRO operations.

“We are excited to partner with Aero NextGen to bring advanced manufacturing solutions to the aerospace MRO industry,” said Warren Andrade, Chief Operating Officer at PINpoint. “This collaboration strengthens our ability to support MRO providers with cutting-edge MES technology, ensuring precision, efficiency, and compliance in their operations.”

“Our partnership with PINpoint aligns perfectly with our mission to advance aviation with smart solutions,” said Monica Badra, Founder of Aero NextGen. “By working together, we can offer MRO providers the tools they need to maintain the highest standards of quality and efficiency.”

About PINpoint PINpoint Information Systems is a global leader in Manufacturing Execution System (MES) software, enabling manufacturers to achieve optimal production efficiency through real-time data insights, quality control, and process management solutions. For over 25 years, PINpoint has empowered manufacturers worldwide with innovative technology that drives continuous improvement. Learn more at www.pinpointinfo.com.

About Aero NextGen Aero NextGen specializes solving systemic challenges in Aviation MRO by matching companies with vetted technology solutions and trusted service providers. Their services focus on strategizing, optimizing, and digitizing operations to achieve strategic and operational excellence. Learn more at www.aero-nextgen.com

Two Experts. One Mission: MRO Done Right.

PINpoint and Aero NextGen are combining process execution precision with digital transformation expertise to elevate aerospace MRO. Together, we help teams reduce rework, accelerate TAT, and stay compliant – with a solution that scales as fast as you do.

- Enforce **repeatable, audit-ready processes** on the shop floor
- **Digitize technician guidance** with smart, visual work instructions
- Capture **real-time data** from tools, devices, and human inputs
- Track every step with **full traceability** and serial-level control
- **Detect and prevent errors** before they escalate
- Deploy fast with **PINpoint No-Code solution**, a platform that scales
