

# BBQ-AID Launches Innovative Bristle-Free Grill Brush for Safer, More Effective Cleaning

*BBQ-AID's newest Bristle Free Grill Brush provides grill lovers with a safer and more reliable cleaning solution that doesn't compromise on effectiveness*

TAMPA, FL, UNITED STATES, April 7, 2025 /EINPresswire.com/ -- BBQ-AID, a leading brand in

“

Our main goal was to create something equally effective to our best selling wire grill brush, while prioritizing safety.”

*Andrew Gilliland*

premium [grilling](#) accessories, is proud to announce the launch of its newest innovation – the BBQ-AID Bristle-Free Grill Brush. Designed for grilling lovers who prioritize both safety and performance, this revolutionary tool eliminates the risks associated with traditional wire bristles while delivering a superior cleaning experience.

“Our main goal was to create something equally effective to our best selling wire grill brush, while prioritizing safety.”

What we learned in the process over the last 2 years is that by using stainless steel mesh and developing our own polyurethane formula, we could create a product that imitates a wire brush, just without the bristles”, says [Andrew Gilliland](#), BBQ-AID’s President.

Traditional grill brushes with metal bristles can pose serious health hazards, as loose bristles can break off and contaminate food. BBQ-AID’s Bristle-Free Grill Brush is engineered with a durable, stainless-steel design that effectively removes stubborn grease and residue without the dangers of stray bristles. The brush is designed for compatibility with all grill types, ensuring effortless and thorough cleaning.

"Safety is always at the top of our list when we consider any product, but what we believe our customers will really appreciate is the next level effectiveness of the brush." says David Hunt, Head of Marketing at BBQ-AID. "We promise the first use will be followed by a 'wow' moment."

Before ordering your next brush, BBQ-AID suggests reading consumer reviews. Many competitor brushes snap, break, or simply do not work to clean a grill.

Key features of the BBQ-AID Bristle-Free Grill Brush include:

Replaceable Screw On Design - don't worry about the head snapping, and when it's been fully used simply swap with a philips screw driver

Bristle-Free Design – Eliminates the risk of metal bristles contaminating food

Customized Poly Blend – Ensures long-lasting durability and effective cleaning power, while still getting between your grates

Ergonomic Wooden Handle – Provides a comfortable grip for effortless scrubbing

Universal Compatibility – Safe for use on all grill types, including stainless steel, cast iron, and porcelain-coated grates

The BBQ-AID Bristle-Free Grill Brush is available for purchase now at [bbqaidtools.com](http://bbqaidtools.com).
