

Meet AEssenseGrows and Endo Canna: See New Products and Production Supply at ICBC Berlin 2025

AEssenseGrows provides consulting services & advanced technology for indoors. Endo Canna is a European state-of-art cannabis licensed medical cannabis producer.

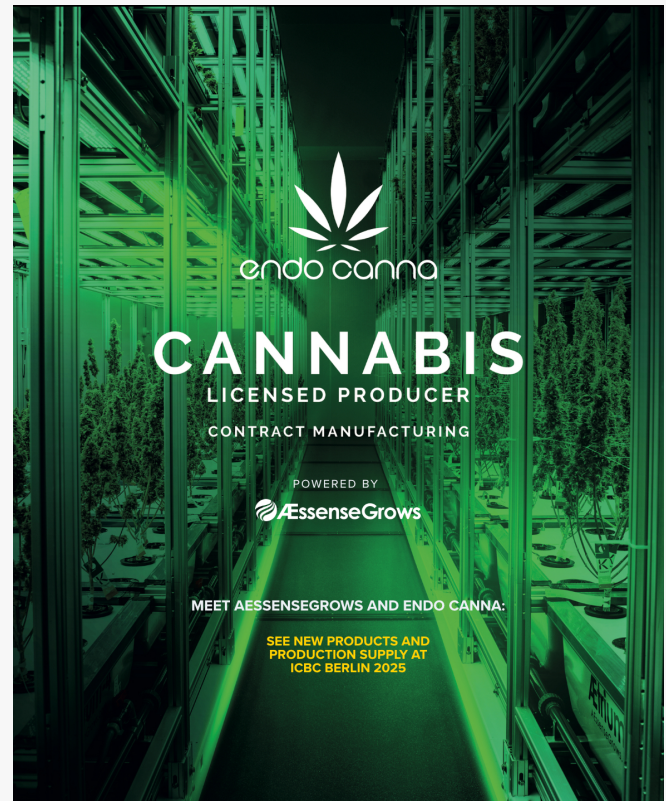

BERLIN, BERLIN/BRANDENBURG, GERMANY, April 21, 2025

/EINPresswire.com/ -- [AEssenseGrows](#) and [Endo Canna](#), will be presenting at the ICBC show in [Berlin](#), booth 0392.

Endo Canna, a licensed medicinal supplier, and AEssenseGrows, an award-winning manufacturer of state-of-the-art aeroponics, will be meeting with European industry leaders at the International Cannabis Business Conference (ICBC) at its flagship show, Europe's largest and longest running cannabis B2B event on April 29-30, 2025. ICBC Berlin 2025 will be held at the iconic Estrel Berlin Hotel.

Endo Canna

Endo Canna supplies premium quality medicinal flowers to the European community. Their aeroponic approach eliminates the need for irradiation, with environmentally friendly methods, and meets all GMP & GACP standards for Germany import. Both CEO, Lukasz Peiniasek, and CFO, Kristina Marikj, will be available to discuss qualified supply operations from their high capacity zero irradiation

EndoCanna Delivering Beautiful Flowers in AEssenseGrows AEtrium-4

Brilliant AEssenseGrows Aeroponic Roots at Endo Canna

facility in North Macedonia.

Endo Canna is currently in full production using AEssenseGrows AEtrium Systems with 4 layer nursery operations through single and double deck flowering rooms. "Working with AEssenseGrows has been a game changer. Their aeroponic system fits our needs perfectly — it's all about automation and staying super clean, which is exactly what we need for top-quality medical cannabis." said Lukasz Pieniazek, CEO of Endo Canna.

AEssenseGrows

AEssenseGrows, managing director, Michael Jorgensen, will also be in attendance to review precision aeroponics and investment planning, grow procedures, with 24x7 experienced guidance for successful, highly profitable grow operations. Michael will discuss why aeroponics is the best way to maintain profitability in this highly competitive global market. Today's European customers include large scale medical cannabis suppliers as well as Germany local cannabis social clubs with recreational production up to 600 kg/year.

Mr. Jorgensen will highlight AEssenseGrows turnkey solution and optional services for your project including:

“

AEssenseGrows is a game changer. Their aeroponic system fits our needs perfectly — it's all about automation & staying super clean, which is exactly what we need for top-quality medical cannabis.”

Lukasz Pieniazek, CEO of Endo Canna

- Facility and floorplan design
- Specification, electricity, climate and water requirements
- Operational planning
- Start up qualifications (IQ, OQ and PQ)
- GACP and GMP certification assistance

AEssenseGrows moves designs from spectacular nursery roots to beautiful flowers with globally profitable results. Aeroponics delivers premium flower production in zero-soil sterile environments, saving water and labor in the process. Please see us at the show to discuss your project plans and objectives.

The AEssenseGrows AEtrium System delivers sensor-driven automation to execute the inherent

Aeroponic Roots and Clones in AEssenseGrows AEtrium SmartFarm Nursery at Endo Canna

benefits of aeroponics. The company's Guardian Grow Manager central management software monitors grow conditions 24/7 and, if needed, automatically adjusts key variables such as nutrients, irrigation, pH, temperature, or lighting to maintain optimal conditions.

About Endo Canna

Endo Canna is a state-of-art cannabis licensed medical cannabis producer based in Skopje, Macedonia, which distinguishes itself through a series of groundbreaking features and certifications that underline its commitment to sustainability, efficiency, and high-quality production. Central to its operation is an advanced aeroponic system, a pioneering cultivation method that suspends plants in air, allowing roots to absorb nutrients directly from a fine mist. This system dramatically reduces water usage by up to 95%, showcasing the facility's dedication to environmental conservation. For more information, visit: <https://endocanna.eu/>.

About AEssenseGrows

AEssenseGrows (pronounced "essence grows"), founded in 2014, is a precision AgTech company based in San Jose, CA, USA, and serving clubs and medicinal customers around the world. AEssenseGrows provides consulting services and advanced technology indoor farming, bringing precision, automation, and performance to sustainable commercial farms globally. The AEtrium System uses aeroponics, advanced software, communications, and modular vertical farming methods to produce high density yields at low cost. With AEssenseGrows, you can precisely control your production operations at your fingertips from anywhere in the world. For more information, visit: <https://www.AEssenseGrows.com>.
