We provide reduction in pollution/scope 3 emissions and increase in social impact not just old laptops for homeless moving into permanent accommodation and pensioners on small pension unable to afford computers and software.

Tech reuse is better than recycling - scope 3 emissions reduction

For years, this program has turned corporate old tech into opportunity, upgrading laptops and MacBooks with open-source software and distributing them to homeless individuals, and elderly citizens via charity partners. Now, as spring brings renewal, SocialBox.Biz urges UK companies to de-clutter their IT departments and make a lasting impact.

Businesses can participate by donating MacBooks (minimum Dual-Core spec), with SocialBox.Biz handling secure data wiping and offering easy options—parcel labels for under smaller or UK-wide pickups for bigger quantities

With Earth Day on April 22, 2025, approaching, SocialBox.Biz sees this as the perfect time to boost sustainability and CSR goals. Contact info@socialbox.biz or +44 843 289 5722, or visit www.socialbox.biz to join this proven effort. Follow @SocialBoxBiz on X to share your contribution.
