

# EZDoff® Exam Glove Introduces Contamination-Reduction Features for Emergency Medicine

*Innovative Removal System Reduces Cross-Contamination Risk for Emergency and Trauma Care Providers.*

CINCINNATI, OH, OH, UNITED STATES, April 8, 2025 /EINPresswire.com/ -- Innovative Removal System Reduces Cross-Contamination Risk for Emergency and Trauma Care Providers

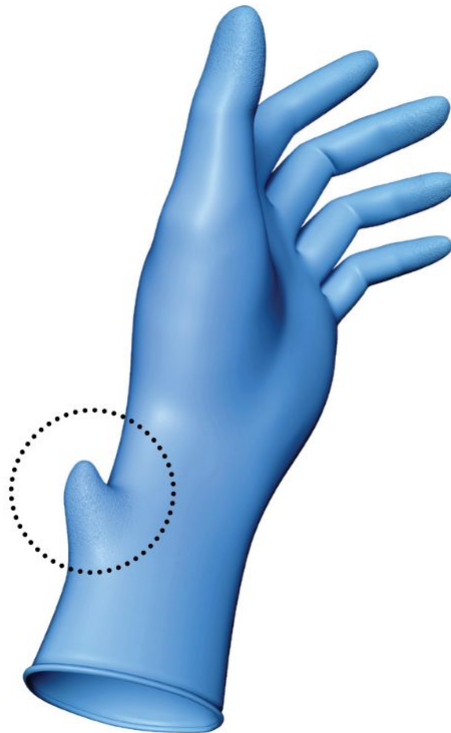

[Clinical Supply Company](#) (CSC) introduces the EZDoff® Nitrile Examination Glove, designed specifically for high-pressure emergency and trauma care environments. This FDA-cleared glove incorporates an innovative removal system aimed at minimizing cross-contamination risks without compromising the speed and efficiency critical to emergency medicine.

Supporting Safety in High-Stress Situations

Emergency departments testing EZDoff® gloves reported a 78.4% reduction in contamination risks compared to standard gloves. This improvement provides a significant boost to safety protocols in fast-paced environments where traditional gloves often fall short during removal, leaving workers vulnerable to exposure.

“Emergency medicine requires rapid responses and split-second decisions, but safety must remain a priority. The EZDoff® glove helps emergency care providers balance these demands by making the glove removal process faster and safer,” said Chad Carnahan, Vice President at Clinical Supply Company.

#### Features Designed for Emergency Medicine

The EZDoff® glove’s innovative features cater to the unique challenges of emergency and trauma care:

**Patented Quick-Removal Tab System:** Facilitates contamination-free glove removal, minimizing exposure risks.

**Enhanced Durability:** Engineered for demanding trauma care procedures.

**Extended Cuff Protection:** Shields against fluid exposure in high-risk environments.

**Superior Grip Texture:** Ensures reliable instrument handling during critical care.

**Chemical and Chemotherapy Drug Compliance:** Suitable for hazmat and specialized response teams.

**Powder-Free, Latex-Free Composition:** Designed for universal use across diverse care settings.

#### Ease of Use in High-Stakes Scenarios

Emergency medicine professionals often face intense situations where glove changes occur frequently—sometimes 30 or more times per shift. The EZDoff® system’s intuitive design ensures healthcare workers can quickly and effectively remove gloves without complex protocols, allowing them to stay focused on patient care.

#### Available Now

Emergency departments and critical care units can request product demonstrations or samples by visiting [www.clinicalsupplycompany.com](http://www.clinicalsupplycompany.com).

#### About Clinical Supply Company

Clinical Supply Company (CSC) develops innovative medical safety solutions, with a focus on enhancing both provider and patient safety in high-pressure medical environments. Based in Cincinnati, Ohio, CSC’s mission is to address critical challenges in emergency and critical care settings through advanced product design and testing.
