As organizations encounter challenges from hybrid work models and AI-powered collaboration combined with talent shortages the old [project management](#) methods prove insufficient. Businesses adopting a growth mentality which emphasizes learning from mistakes along with innovation and teamwork find themselves better prepared to handle uncertainty.

Skilled project managers are increasingly in demand. The U.S. Bureau of Labor Statistics reports that project management positions will experience a 7% yearly growth rate which exceeds the average job market expansion. The existence of 90 million project managers worldwide forces organizations to provide their teams with appropriate tools and mental frameworks to maintain competitive advantage.

"The pace of change in project management has never been faster," says Dr. Peter Jaworowicz, co-author of [The Growth Mindset](#) in Project Management. "Companies and leaders must rethink their approach, focusing on learning and agility rather than rigid structures." Dr. Magda Jaworowicz adds, "This book is about empowering project managers with the right mindset.

Whether they are leading small teams or large-scale initiatives, the ability to adapt, innovate, and drive engagement is critical.”

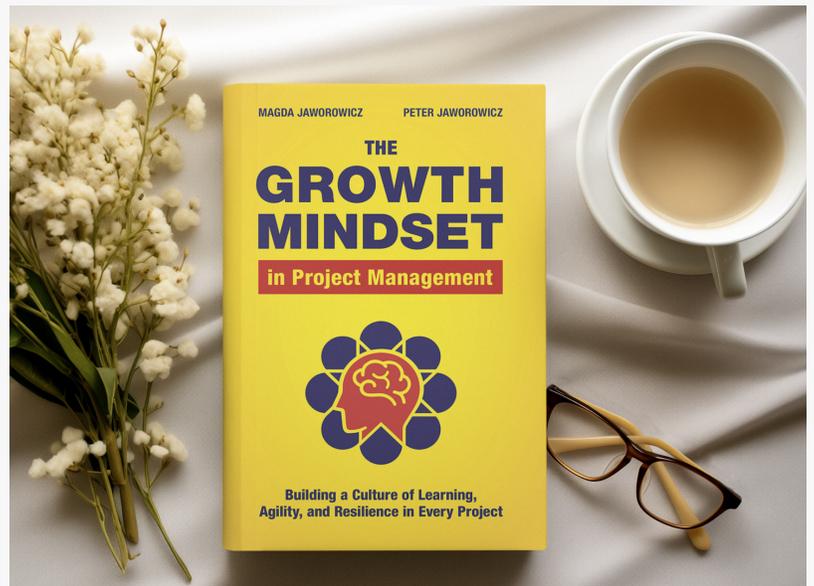

Project management leaders at every level can apply actionable insights from *The Growth Mindset in Project Management*. This book presents methods for developing team resilience while using AI for better decision-making and synchronizing project execution with organizational goals. The book examines how stakeholder collaboration and flexible project methodologies merge traditional practices with Agile techniques.

“Project management is no longer just about processes—it’s about people, adaptability, and a commitment to growth,” says Dr. Peter Jaworowicz. “This book is a roadmap for those who want to lead with confidence in an unpredictable world.”

The Growth Mindset in Project Management is now available in hardcover, paperback, and eBook formats on Amazon and Barnes & Noble across the US, Canada, the UK, and several other European countries.
