## The Rising Operational Challenges for CPA Firms

CPA practices throughout the USA are encountering significant operational hurdles, including escalating staffing costs, ongoing labor shortages, and an increasingly complex regulatory

environment. Key industry insights highlight the pressure:

1. 68% of mid-sized CPA firms are struggling to retain qualified bookkeeping professionals in-house.

2. \$60,000+ is the average annual expense for maintaining internal bookkeeping personnel.

3. 42% of firms report delays in financial reporting caused by internal capacity constraints.

These statistics underscore the need for smarter, more adaptable solutions that ease operational strain without compromising the accuracy and reliability that clients expect.

IBN Technologies offering the Right Solution

IBN Technologies has emerged as a trusted provider addressing these challenges with scalable, secure, and cost-effective offshore bookkeeping services, customized specifically for CPA firms. With 25 years of industry expertise, IBN's experienced team operates on a strong foundation of secure infrastructure and [advanced accounting platforms](#) like QuickBooks, Xero, and Sage. Their services are designed to help CPA firms in Oregon overcome staffing limitations, maintain compliance, and reduce operational expenditures while keeping books accurate and up to date.
