From clean-burning soy and beeswax candles to soothing essential oils and natural body care, every product at SaFiSpa is mindfully made, toxin-free, and rooted in nature. The brand is quickly gaining attention for its commitment to high-quality craftsmanship and ingredients without sacrificing design or luxury.

Artisan Candles That Embrace Clean Living

Each SaFiSpa candle is hand-poured in small batches using a proprietary blend of American-grown soy wax and pure beeswax. The result is a candle that burns cleaner than conventional paraffin-based alternatives—free from phthalates, synthetic dyes, and petroleum byproducts.

“We focus on ingredients that support the home as a place of healing,” says Nicole Peters Devis, founder of SaFiSpa. “Our candles are not only beautiful, but they’re safe to burn around children and pets.”

With wooden wicks, eco-conscious packaging, and aromatherapy-inspired scents, SaFiSpa candles are both a wellness ritual and a design statement. Every scent is crafted using essential oil blends, offering fragrance profiles that are mood-enhancing and deeply comforting.

Signature Scents with Purpose

Each scent in the SaFiSpa candle collection is carefully curated to support mood, energy, and emotional wellness. The brand’s essential oil blends are inspired by aromatherapy principles and Caribbean roots, offering a sensory journey with every burn:

Lavender Vanilla – Soothing and sleep-friendly, perfect for nighttime routines.

Sandalwood – A warm, grounding scent that adds depth and luxury to any room.

Passion Fruit & Caribbean Spice – A tropical escape that evokes island memories.

Rose & Vetiver – Earthy, romantic, and perfect for emotional balance.

Fresh Lychee & White Tea – Bright and refreshing, ideal for focus and clarity.

Citrus & Bergamot – Uplifting and energizing with a clean finish.

Expanding Into Wellness: SaFiSpa’s Natural Body Care Line

In addition to its candle collection, SaFiSpa is proud to introduce a range of plant-based bath and body products, designed to nourish skin and calm the mind. The expanding collection includes:

Brighten your space with SaFiSpa’s Bergamot Candle—a citrusy burst of sunshine, hand-poured in soy wax for a clean, long-lasting glow. Toxin-free & mood-enhancing.

Natural Lotion Bars – Made with organic shea butter, jojoba oil, cocoa butter and botanical extracts for long-lasting hydration without synthetic preservatives.

Aromatherapy Body Oils – Lightweight and fast-absorbing, infused with essential oils for stress relief, mood enhancement, and glowing skin.

Body Wash – A gentle, pH-balanced formula that cleanses without stripping, perfect for sensitive skin and daily self-care rituals.

This holistic approach reflects SaFiSpa’s belief that self-care starts with nature—and that beauty and wellness should never come at the expense of your health or the environment.

A Brand Rooted in Values

“Today’s consumers are smart—they’re reading labels, researching ingredients, and demanding better. That’s why we reject cheap synthetics and focus on clean, safe, and sustainable products that elevate both your space and your spirit,” says Nicole Peters Devis, founder of SaFiSpa. “Every candle, every lotion bar, lotion, body wash, every essential oil is handcrafted with intention and care.”

Nicole’s journey began as a wellness advocate passionate about healing and natural living. Drawing inspiration from her Caribbean heritage, she created SaFiSpa as a sanctuary for those seeking mindful products with beautiful design and powerful plant-based benefits.
