OTC 2025 is themed "Waves of Innovation >> Offshore Energy Excellence," spotlighting the cutting-edge technologies transforming the global offshore energy landscape. With an evolving energy mix that spans oil and gas, wind, hydrogen, and marine resources, MELTRIC solutions enable operations to adapt with flexibility, safety, and confidence.

“MELTRIC is built for moments when downtime isn’t an option,” said Tommy Van Oost, Sales Manager - Central

Region at MELTRIC Corporation. “At OTC 2025, we’re showing the energy sector how our Switch-Rated technology helps unlock new levels of safety and performance—whether in upstream oil and gas, offshore wind platforms, or next-gen hydrogen operations. MELTRIC gives crews the ability to safely connect and disconnect equipment at the push of a button—even in harsh or hazardous conditions.”

As offshore energy operators look for smarter, safer, and more agile solutions, MELTRIC delivers.

Designed to withstand extreme environments and engineered for quick-change reliability, MELTRIC devices empower energy professionals to reduce unplanned downtime, improve crew safety, and drive operational excellence.

Visit MELTRIC at OTC 2025 in Booth #3006 to learn how our rugged power connection solutions are helping shape a resilient, forward-looking offshore energy industry.
