Prime 1 Studio presents a 1/4 scale statue of Morrigan from Capcom's fighting game series "Darkstalkers," released as part of the Real Elite Masterline series.

This statue brings Morrigan's distinctive anime-style appearance into three dimensions through a sculpt and paint approach that combines realistic detailing with stylized expression. The leg-crossing pose reflects her elegance and uninhibited personality. Her eyes have been slightly enlarged and feature narrow vertical pupils reminiscent of nocturnal animals, emphasizing her identity as a Darkstalker. The wing membranes are finished with pearl paint to create a glow-like effect. Her skin tone has been rendered in a porcelain-like shade, deviating from natural human tones. The costume features varied textures by section to reflect the look and weight of different materials.

The base incorporates a gothic design inspired by the themes of succubus
