

Pcloudy and QualiZeal Partner to Advance AI-Powered Digital Quality Engineering

Pcloudy and QualiZeal join forces to deliver scalable, AI-driven quality engineering solutions for faster, smarter, and more reliable digital experiences.

CA, UNITED STATES, April 10, 2025 /EINPresswire.com/ -- Pcloudy, a leading [AI-powered digital experience testing platform](#), and QualiZeal, North America's fastest-growing independent digital Quality Engineering Services company, have announced a strategic partnership to redefine testing and quality assurance in the digital era.

pcloudy and qualizeal partner to advance ai-powered digital quality engineering

With the combined strengths of Pcloudy's intelligent, cloud-based testing ecosystem and QualiZeal's expertise in quality engineering, this partnership aims to empower enterprises with seamless, scalable, and efficient testing solutions.

“

We are excited to join forces with QualiZeal, a company that shares our vision for transforming digital quality engineering.”

Avinash Tiwari, Co-Founder at Pcloudy.

Together, Pcloudy and QualiZeal will enable digital-first businesses to accelerate release cycles, enhance application reliability, and deliver flawless omnichannel experiences.

“This collaboration will allow enterprises to integrate [AI-driven testing](#) seamlessly into their DevOps pipelines, ensuring faster and more reliable app releases.” QualiZeal, known for its elite team of 850+ software quality engineers

and trusted by over 70 global enterprises, brings a wealth of experience in AI-powered testing and digital transformation.

By leveraging Pcloudy's AI Agents for testing and real-device testing capabilities, QualiZeal aims to further enhance its ability to help clients optimize digital experiences and mitigate app risks effectively.

This collaboration is set to provide enterprises with:

AI-powered automated testing: Seamless integration of AI-driven testing into CI/CD pipelines for faster and more accurate defect detection.

End-to-end digital quality engineering: Comprehensive solutions covering web, mobile, desktop, and API testing to ensure superior digital experiences.

Scalability and performance monitoring: Real-time monitoring and performance analytics to identify bottlenecks early and optimize application performance.

As the demand for digital transformation accelerates, this partnership between Pcloudy and QualiZeal positions both companies as key enablers of high-quality, AI-powered app testing. Enterprises seeking to enhance their digital experiences can leverage this collaboration to modernize their testing workflows, reduce release risk, and deliver exceptional digital experiences at scale.
