

This Week in Construction: Top Innovations & Industry Trends – April 10, 2025

Peer-to-peer digital content sharing for construction and building professionals

SUNDRE, ALBERTA, CANADA, April 10, 2025 /EINPresswire.com/ -- Since its establishment in 2003, Construction Links Network has emerged as a premier news and information hub in the construction sector. With a commitment to enhancing the digital presence and search engine visibility of its members, Construction Links Network has become an indispensable resource for a wide array of professionals. This includes construction managers, contractors, developers, building and property managers, architects, designers, engineers, and government officials.

As a dynamic hub for digital content dissemination, Construction Links Network offers its members diverse engagement opportunities through news releases, company announcements, blogs, podcasts, webinars, case studies, whitepapers, and videos.

Be sure to watch this week's featured video showcasing the demolition of Calgary's Eau Claire Mall, captured in stunning 4K by Priestly Demolition Inc. Site Superintendent Greg provides an exclusive walkthrough, offering insights into the project's progress and its role in shaping the site for future development. The City of Calgary took possession of Eau Claire Market and the River Run Condos on June 1, 2024, and demolition work officially began in January 2025. The project includes the removal of above-ground and below-grade structures, foundations, vegetation, and hardscaping. While interior abatement began first, exterior demolition followed shortly after on January 22. Although there is uncertainty about the immediate use of the land for the Green Line LRT, demolition is proceeding to eliminate risks associated with vacant structures and to meet contractual commitments. The Council-approved 46-km Green Line vision remains unchanged,

including a future station at 2 Avenue and a Bow River crossing, which may ultimately require use of this site.
