

Italy's Space Industry at Symposium in Colorado. Italian Trade Agency and ASI Lead 31 Companies to Key Global Event

COLORADO SPRINGS, CO, UNITED STATES, April 10, 2025

[/EINPresswire.com/](https://EINPresswire.com/) -- Italy's aerospace industry is expanding its footprint in the U.S., demonstrating steady growth in business volume and deepening market presence. At the ongoing Space Symposium in Colorado Springs, a leading global event that brings together more than 10,000 industry professionals, business leaders, and policymakers, Italy is represented by a [delegation](#) of 31 space-tech companies. The delegation, organized by the [Italian Trade Agency](#) (ITA) and the [Italian Space Agency](#) (ASI), concludes a quarter highlighted by major industry gatherings, including SpaceCom in Orlando and the Satellite Conference & Exhibition in Washington, D.C.

Italian Pavilion at Space Symposium 2025

Twelve Italian companies exhibit within the Italian Pavilion organized by ITA's Houston Office in collaboration with ASI: Apogeo Space, APR, ARCA Dynamics, Bercella, D-Orbit, Eligio Re Fraschini, Intella, Involve Space, Novaeka, Spacemind-NPC New Production Concept, Space Products and Innovation-SPiN, Tyvak International.

Additional leading Italian aerospace firms, accompanied by institutional representatives from the Piedmont and Emilia-Romagna regions, are also attending, including Aiko, Altec, Angelantoni, Argotec, CShark, Davi-Promau, Ecosmic, Impulso Space, IRCA-Zoppas Industries, Leaf Space, Novac, Nurjana Technologies, Officina Stellare, Optec, Persico, Stellar Project, T4i-Technology for Propulsion and Innovation, Telespazio-Thales Alenia Space/Leonardo, Vanzetti Engineering.

Filippo Fusaro, Trade Commissioner at ITA's Houston office, stated: "The participation of Italian companies at the 40th Space Symposium, the most significant international event for the

aerospace industry, represents a critical moment for further consolidating Italy's role as a strategic global partner, particularly within the U.S. market. Recent export data clearly demonstrates the growing importance of this collaboration, underscoring Italy's current position as a leading partner for the U.S. aerospace sector. The international competitiveness of Italian companies, excelling across multiple technological fields, makes them ideal allies to support and enable the most advanced innovations within the American aerospace industry."

"Spazio Italia" at the Symposium includes dedicated lounges for business meetings and a private meeting room. Events designed to foster connections with Italian delegates include a site visit organized by Metro Denver and the Colorado Springs Chamber of Commerce on April 7, and networking sessions organized by Italian regional and governmental delegations on April 9, attended by representatives from Italy's Prime Minister's Office, the Ministry of Foreign Affairs (MAECI), and the Office for Space and Aerospace Policies (UPSA).

Space Symposium, created in 1984 by Space Foundation, is the premier assembly of the global space community, bringing together more than 10,000 space professionals, business leaders, and decision-makers. Attendees from more than 40 countries gather in Colorado Springs to form partnerships and explore the latest in space technology. Representing all sectors of the space ecosystem, participants include space agencies, commercial businesses, military organizations, government agencies, R&D facilities, educational institutions, and entrepreneurs.

Key Aerospace Events in the U.S.

This strategic quarter has featured major aerospace events, starting with SpaceCom in Orlando, followed by ASCENDxTexas in League City and the Satellite Conference & Exhibition in Washington, D.C., each highlighting Italy's robust presence in the U.S. aerospace market.

Italy's Aerospace Growth in the U.S.

Italian aerospace exports to the U.S. reached an unprecedented \$3.17 billion in 2024, marking a 27.37% increase over the previous year, significantly outpacing overall U.S. aerospace import growth (10.15%). Meanwhile, U.S. aerospace exports to Italy grew by 18.31%, highlighting strengthening bilateral trade ties.

Italy's Aerospace Sector Overview

Italy's aerospace industry generated €18 billion in revenue in 2024, with approximately €8 billion from exports. Employing nearly 60,000 individuals, the sector comprises large enterprises and specialized SMEs excelling in avionics, propulsion systems, composite materials, and more.

Key regions include Lombardy, Piedmont, Campania, Lazio, and Puglia, each with specialized competencies. Major export markets are the EU (40%), the U.S. (25%), and the Middle East (15%), with growing opportunities in emerging markets such as India, China, and Southeast Asia.
