

# HVACRedu.net Launches Free National HVACR Career Exploration Program for High School Students

*Free 102-hour online program gives high school students a hands-on introduction to HVACR careers, including refrigeration, boilers, and more.*

HERON, MT, MT, UNITED STATES, April 11, 2025 /EINPresswire.com/ -- [HVACRedu.net](https://www.hvacredu.net), a national leader in online HVACR education, is proud to announce the launch of its Free National High School HVACR Career Exploration Program—a self-paced, 102-hour online course designed to introduce high school students to the world of Heating, Ventilation, Air Conditioning, and Refrigeration (HVACR).

High school students engage in hands-on, technology-driven learning—ideal candidates for HVACRedu.net's free 102-hour online HVACR career exploration program.

Developed specifically for high school learners, this free online program gives students a no-cost, accessible opportunity to explore the skilled trades and understand the career potential within the HVACR industry.

“We created this program to help high school students discover a meaningful, hands-on career path that’s often overlooked,” said Chris Compton, Founder, CEO, CMS, CMHE of HVACRedu.net. “HVACR offers strong earning potential, job security, and continuous growth—all without the burden of college debt.”

## □□ Program Highlights:

- • 16 online, self-developed modules – No 3rd-party content
- • Topics include: HVACR fundamentals, refrigeration, boilers, CO<sub>2</sub> systems, digital controls, and more
- • Built-in assessments – Each module includes its own exam
- • HVACR Career Map – Helps students visualize career pathways
- • Flexible delivery – Entirely self-paced and accessible from any internet-enabled device

We created this program to help high school students discover a meaningful, hands-on career path that's often overlooked."

□ Who It's For:

- • High school juniors and seniors
- • Students in Career & Technical Education (CTE) programs
- • Virtual academies and homeschool networks

□ Why It Matters:

HVACR is a critical, high-demand field that powers the infrastructure of modern life—from hospitals and schools to grocery stores and data centers. As industries face a growing shortage of skilled technicians, HVACRedu.net's

program aims to expose students to these opportunities early and encourage them to consider careers in HVACR, sustainability, and building systems technology.

□ [Program Enrollment & Details:](#)

Students, educators, and families can learn more and enroll for free at:

□ <https://www.hvacredu.net/national-high-school-program/>

Schools and organizations interested in sharing this opportunity can request flyers, digital assets, and partnership information by contacting Chris Compton at [info@hvacredu.net](mailto:info@hvacredu.net).

About HVACRedu.net

Founded in 1997, HVACRedu.net is a pioneer in online HVACR education, serving students, technicians, and professionals nationwide. With a mission to make learning accessible and career-relevant, HVACRedu.net offers accredited, high-quality training programs aligned with industry standards. The company is recognized for innovation in HVACR workforce development and continues to lead in virtual, competency-based education.
