

Europe Orthopedic Biomaterial Market to Reach USD 24.57B by 2032, CAGR 13.08% from 2024

Europe Orthopedic Biomaterial Market Growth Size was valued at USD 8.24 Billion in 2023.

US, NY, UNITED STATES, April 11, 2025 /EINPresswire.com/ -- Orthopedic biomaterials are substances used to support damaged bones, joints, and tissues. These include metals, ceramics, polymers, and composites. They are applied in joint replacements, spine surgeries, fracture fixation, and other orthopedic procedures.

[Europe Orthopedic Biomaterial Market Growth](#) Size was valued at USD 8.24

Billion in 2023. The Global Europe Orthopedic Biomaterial industry is projected to grow from USD 9.30 Billion in 2024 to USD 24.57 Billion by 2032, exhibiting a compound annual growth rate (CAGR) of 13.08% during the forecast period (2024 - 2032). Biomaterial is acquiring a huge demand for the treatment of different diseases and condition. They have got a special attention in the orthopedic segment. Many different type of implant are prepare by using biomedical.

Top Europe Orthopedic Biomaterial Market Companies

Materion Corporation (US)

S&V Technologies (Germany)

Rayner (UK)

Europe, Middle East and Africa Orthopedic Biomaterial Market

InVision Biomedical (US)

Royal DSM (Netherlands)

BASF SE (Germany)

Carpenter Technology Corporation (US)

Covestro (Germany)

Invibio Ltd. (U.K.)

Ulbrich Stainless Steel & Special Metals, Inc. (US)

Corbion N.V. (Netherlands)

CeramTec (Germany)

Ceradyne (US)

Heraeus Medical Components (US)

Kyocera Corporation (Japan)

Ticona GmbH (Germany)

Johnson & Johnson (US)

Osteotech, Inc. (US)

Cam Bioceramics B.V. (Netherland)

Evonik Industries AG (Germany)

Orthopedic Biomaterials Market is segmented on the basis of, by type of material which is Metals and Non-metals. Metals are further sub segmented into stainless steel, Titanium Alloy, Cobalt alloy and others. Non Metal is sub segmented into Ceramic (Alumina, Calcium Phosphate, Zirconium dioxide. Carbon and Other), Polymeric (Polymethylmethacrylate, Polyethylene, Silicone, Polyester and Other), Natural Biomaterials (Collagen, Chitin & Chitosan and Other) and Others.

Industry Detailed Segmentation:

Orthopedic Biomaterial Market Type Outlook

Metallic Biomaterials

Polymeric Biomaterials

Ceramic Biomaterials

Composite Biomaterials

Natural Biomaterials

Orthopedic Biomaterial Market Application Outlook

Joint Replacement

Spine Implants

Trauma Fixation

Orthobiologics

Viscosupplementation

Orthopedic Biomaterial Market End User Outlook

Hospitals

Ambulatory Surgical Centers

Orthopedic Clinics

Research & Academic Institutes

Orthopedic Biomaterial Market Material Source Outlook

Synthetic Materials

Natural Materials

Orthopedic Biomaterial Market Regional Outlook

Europe

Middle East

Africa

The report for Europe, Middle East and Africa Orthopedic Biomaterial Market of Market Research Future comprises of extensive primary research along with the detailed analysis of qualitative as well as quantitative aspects by various industry experts, key opinion leaders to gain the deeper insight of the market and industry performance. The report gives the clear picture of current market scenario which includes historical and projected market size in terms of value and volume, technological advancement, macro economical and governing factors in the market. The report provides details information and strategies of the top key players in the industry. The report also gives a broad study of the different markets segments and regions.

Key Benefits:

Rising Prevalence Drives Demand

Increasing incidence of oral thrush due to rising immunocompromised populations (e.g., HIV/AIDS, cancer, diabetes, elderly) fuels market growth.

Innovation in Antifungal Therapies

Development of novel antifungal drugs and advanced formulations (like mucoadhesive gels and lozenges) enhances treatment efficacy and patient compliance.

Growing Awareness and Diagnosis

More public awareness and improved diagnostic technologies contribute to early detection and treatment, increasing the demand for antifungal products.

Expansion in Emerging Markets

Developing countries with improving healthcare infrastructure offer new growth opportunities for pharmaceutical companies.

Increased OTC Product Availability

Over-the-counter (OTC) availability of antifungal treatments boosts accessibility and market size.

Rising Geriatric Population

The aging population, more prone to oral infections, particularly benefits from targeted therapies, propelling market growth.

Supportive Healthcare Policies

Government initiatives to improve oral and general health can lead to greater investment in oral thrush treatment solutions.

Partnerships and R&D Investment

Collaborations between biotech firms, academia, and pharma companies foster innovation and broaden treatment options.
