

Verum Messenger introduces Verum Mail integration in the last update

The latest update of Verum Messenger brings full integration with Verum Mail — a tool for instant and fully anonymous email communication.

LONDON, LONDON, UNITED KINGDOM, April 14, 2025

/EINPresswire.com/ -- Verum team continues to expand its ecosystem of secure digital solutions. The latest update of [Verum Messenger](#) brings full integration with [Verum Mail](#) — a tool for instant and fully anonymous email communication.

Verum Mail

Now, users can generate temporary email addresses directly within the messenger — no registration, no passwords, no extra steps. The integration enables real-time message delivery, attachments, receiving and composing emails, and automatic deletion of emails after 1 hour.

What's new:

- Verum Mail integration in the messenger interface
- One-tap temporary email creation
- Real-time email delivery and viewing
- Reply to emails without leaving the app
- Full privacy: no account linking or data storage
- File attachments: Send and receive files

Verum Mail compatible with all major email services — send and receive emails from iCloud, Gmail, Proton Mail, etc.

Verum Messenger + Verum Mail means a new level of privacy, where your messages and emails work together — fast, secure, and truly private.

This update is now available for all Verum Messenger users.
