

Lucia Magnani Health Clinic Earns Two Major 2025 Wellness Awards

MILAN, MILAN, ITALY, April 15, 2025 /EINPresswire.com/ -- The Lucia Magnani [Health Clinic](#) has been awarded Best Medical SPA 2025 at the Italian SPA Awards 2025 and listed among the most iconic SPAs of 2025 by the prestigious international guide Condé Nast Johansens Luxury Spas 2025.

Held during the Borsa Internazionale del Turismo at Fiera Milano Rho, the Italian SPA Awards 2025 is the first Italian award dedicated to recognizing excellence, quality, customer satisfaction and – as of this year – sustainability in the growing wellness and health tourism sector. In the Medical SPA category, the Lucia Magnani Health Clinic was named Best Medical SPA 2025. This recognition highlights an institution at the forefront of promoting longevity and health through a scientific method: the Long Life Formula[®], developed over thirteen years ago. Now in its 16th edition, the award is based on evaluations from tourism professionals, visitors to the BIT, and regular SPA-goers, gathered through an analysis of votes and comments on major national and international social media and booking platforms.

In the Medical SPA category, the Lucia Magnani Health Clinic was recognized as Best Medical SPA 2025 — an award that honors an institution at the cutting edge of promoting longevity and health through an integrated scientific approach, the Long Life Formula[®], developed more than a decade ago.

Located in Castrocara Terme, within the complex that also includes the historic thermal baths and the Art Déco-style Grand Hotel, the Lucia Magnani Health Clinic is a unique facility that combines predictive medicine, advanced diagnostics, personalized health programs, thermal treatments and psychophysical wellness protocols in a setting rich in history, nature, beauty, and innovation.

The award was granted by an independent jury composed of real guests of the participating facilities — a decision that gives the recognition genuine value, rooted in direct experience rather than marketing strategies.
