TORONTO, ONTARIO, CANADA, May 7, 2025 /EINPresswire.com/ -- In a powerful and unprecedented statement, Gary Bedell—a former Canadian diplomat, trusted aide to Nelson Mandela, and fully initiated Zulu Sangoma (traditional healer)—has delivered a direct and urgent message from the Ancestors: the world's sacred balance is being disrupted and their warnings must be heard:

Across the world, billions of people—from Vietnam to Nigeria, from Peru to Mongolia—honor their Ancestors and seek their wisdom. Now, for the first time, a trained Sangoma is channeling their collective voice into a global message of reckoning.

The people suffering and dying in Ukraine and Gaza are the living descendants of the Ancestors. They are family. This could not be more personal.”

more personal.”

“The Ancestors have guided humanity for time immemorial and they almost never interfere in politics,” Bedell explains. “Kings, Presidents and Prime Ministers are normally treated with benign neglect as long as they govern wisely and with integrity. However recent events, such as the wars in Ukraine and Gaza, have compelled them to act.”

“This is very personal for the Ancestors,” Bedell clarifies. “The people suffering and dying in these tragic events are their living descendants. They are family. It could not be

As a diviner, Bedell's calling is rooted in sacred Zulu traditions and carries profound spiritual responsibility. Having completed his Sangoma training after being diagnosed with a life-limiting illness—a journey first encouraged by Mandela himself—he speaks now not only as a healer but as a messenger for the Ancestors. He has assumed the Zulu name Dabulamaфу, which means to break through the clouds or to bring clarity.

"The Ancestors have seen all this before, in so many fallen empires and broken nations," Bedell states. "They have the wisdom of the ages to guide them and that is why they can no longer remain silent."

For the millions who are anxious, even frightened, about the future, this communication should be seen as a beacon of hope.

"The Ancestors will never abandon us," Bedell points out. "But they have drawn a line in the sand. The time for action is near."

"Our forebears are the universal Supreme Court and their judgments cannot be ignored," Dabulamaфу reaffirms.

The Ancestors are watching and they will be heard!
