

RevTech Labs Class 22 to Showcase Cutting-Edge Innovation at Fintech + Insurtech Generations

CHARLOTTE, NC, UNITED STATES, April 22, 2025 /EINPresswire.com/ -- [RevTech Labs](#) is proud to introduce the 22nd cohort of its accelerator program, a diverse group of 14 fintech and insurtech startups from around the world. With three international companies and four based in North Carolina, this cohort reflects RevTech Labs' commitment to fostering innovation and increasing access to venture funding for Traditionally Underrepresented (TURF) Founders, who make up 57% of this year's class.

After an extensive selection process that involved engaging with over 26,000 companies and narrowing down more than 315 applications, the chosen startups will embark on their final pitch at [Fintech + Insurtech Generations](#) on June 11-12, 2025, at the UNC Charlotte Dubois Center in Uptown. As the premier fintech and insurtech innovation conference of the Southeast, Fintech + Insurtech Generations offers an unparalleled platform for startups to gain exposure, connect with industry leaders, and showcase their groundbreaking solutions.

"Our accelerator is designed to give these founders the best possible support as they scale their ventures, and we couldn't be more excited to see them pitch at the conference and succeed beyond the program," said Dan Roselli, Co-Founder of RevTech Labs. "With AI innovation driving the next wave of fintech and insurtech solutions, this year's cohort represents the future of financial services."

Adding to the excitement, Fintech + Insurtech Generations 2025 will feature the debut of the NextGen Startup Expo, a dynamic new addition to the conference. The NextGen Startup Expo will serve as a dedicated space for early-stage fintech and insurtech startups to present their ideas, network with investors, and gain industry insights. This initiative underscores the conference's role as a launchpad for innovation and an essential gathering for the brightest minds in fintech and insurtech.

"We're thrilled to introduce the NextGen Startup Expo this year," said Sara Garces Roselli, Co-Founder of RevTech Labs. "This addition provides emerging startups with unprecedented access to industry experts, investors, and potential partners, reinforcing our mission to drive innovation at all levels of the fintech ecosystem."

Class 22 represents a significant milestone for RevTech Labs. The RevTech Labs Showcase will feature all 14 promising fintech and insurtech startups, developing impactful solutions across artificial intelligence, regulatory tech, lending, and broader financial services. Their final presentations at Fintech + Insurtech Generations will spotlight the progress and innovation cultivated throughout their time in the accelerator program.

New to this year's event, the NextGen Startup Expo is a dedicated platform for early-stage ventures (outside of the accelerator cohort) with demo-ready products to gain visibility, gather feedback, and build meaningful relationships with potential investors, partners, and customers. The Expo extends the conference's mission—amplifying emerging voices and accelerating the growth of the fintech and insurtech ecosystem. Space is limited and applications are accepted on a rolling basis - [apply today!](https://www.generations.global/nextgen-startup-expo) Selected startups will be announced on the conference website - <https://www.generations.global/nextgen-startup-expo>
