

Ohio Leaders Urged to Embrace Invoice Process Automation as IBN Technologies Drives Digital Shift

IBN Technologies enhances invoice processing in Ohio with intelligent automation, improving accuracy and driving cost savings.

MIAMI, FL, UNITED STATES, April 16, 2025 /EINPresswire.com/ -- Ohio's mid and large-size businesses continue to face mounting pressure to modernize back-office financial operations. Despite digital progress in other sectors, many companies still rely on outdated manual invoice processes that are slow, error-prone, and costly. This stagnation impairs visibility, complicates vendor relationships, and delays payment cycles—ultimately limiting strategic financial growth.

IBN Technologies, a global leader in finance process outsourcing and automation, is now transforming how

Ohio businesses manage their accounts payable with a robust [Invoice Process Automation](#) solution powered by Intelligent Process Automation. This innovative service is specifically designed to eliminate inefficiencies, reduce processing time, and improve accuracy and compliance—setting a new benchmark in the field of Accounts Payable Automation.

The Escalating Demand for Accounts Payable Automation

Even with ongoing innovations in financial technology, numerous organizations continue to operate with legacy, paper-driven invoice systems. This reliance on manual methods results in several critical inefficiencies:

IBN Technologies: Expert in Outsourced Finance and Accounting Services

Significant Time Drain – Staff spend excessive hours entering data, validating invoices, and following up on approvals.

Higher Error Incidence – Manual processes often cause duplicated payments, data mismatches, and regulatory exposure.

Limited Cash Flow Insight – Siloed systems reduce visibility into payables, hindering timely financial planning.

Elevated Processing Expenses – Physical invoice handling, document storage, and manual effort drive unnecessary AP costs.

Supplier Friction – Delays in processing and payments strain relationships with vendors and impact service continuity.

A recent industry analysis revealed that companies adopting invoice automation can lower processing costs by 60–80% and shorten invoice cycle times from weeks to just days. IBN Technologies' solution directly supports this transformation, delivering a flexible, intelligent platform that outperforms traditional AP processes.

“With the integration of intelligent automation, organizations can significantly reduce operational expenses, enhance data accuracy, and gain real-time control over financial workflows—ultimately redefining the accounts payable

5 Ways Intelligent Automation Boosts Data Management

- Faster Entries**
Speed up data input.
- Better Accuracy**
Reduce errors.
- Stay Compliant**
Simplify regulations
- Cut Costs**
Save time and resources
- Scale Effortlessly**
Handle growth with ease

It's time to **Automate** and Focus on what Matters most—your Business Growth!

AP Automation

landscape,” said Ajay Mehta, CEO of IBN Technologies.

Key Features of IBN’s Intelligent Invoice Automation Solution

IBN Technologies’ platform brings together the latest in automation innovation:

- Multi-Source Document Capture – Accepts invoices from email, scans, and ERP integrations.
- Advanced Document Recognition – Smart OCR, ICR, and barcode scanning ensure near-perfect data extraction.
- Automated Classification – Automatically distinguishes between invoice types, purchase orders, and credit notes.
- Built-In Compliance Engine – Flags discrepancies, duplicates, and mismatched supplier details.
- Real-Time ERP Sync – Ensures clean data transfer into existing accounting systems without delays.

This all-in-one solution not only speeds up with the [automated invoice management](#) but also reinforces compliance, enhances financial transparency, and supports audit preparedness for today’s finance executives.

Demonstrated Success Across Ohio Industries

The automation impact is already visible across multiple Ohio sectors:

A Columbus-based manufacturing distributor reduced invoice approval times by 78% by automating PO matching and exception handling, significantly improving cash flow planning.

A Cincinnati retail supply firm eliminated 90% of manual entry and reduced processing errors by over 85% after deploying IBN’s solution. The AP team now closes month-end books in half the time, with greater accuracy and less stress.
