Intelligent process automation services

“We’re not just automating tasks — we’re enabling smarter business decisions, our clients trust us not just for our technology, but for the peace of mind that comes with accurate, timely, and secure financial operations,” said Ajay Mehta CEO of IBN Technologies.

## IBN Technologies Is the Proven Choice for AR Automation

As businesses increasingly turn to automation to manage financial operations, IBN Technologies has positioned itself as a noteworthy provider of outsourced accounts receivable (AR) automation services. Its solutions are designed to address common operational challenges by integrating intelligent automation with expert-backed support. Tailored for a range of professionals—including consultants, freelancers, and retailers—the platform aligns with U.S. financial standards such as GAAP. The service is structured to accommodate varying business sizes, with implementation designed to be efficient and scalable.

The services include:

- 1) Invoice Processing Automation – Speeds up billing cycles through automated data capture, PO matching, and approvals
- 2) Cash Application Automation – Ensures payment accuracy and automatic matching to the correct accounts

- 3) Automated Payment Reminders – Proactively manages collections with system-driven notifications
- 4) ERP Integration – Seamlessly connects AR tools with existing enterprise platforms
- 5) Real-Time Reporting & DSO Reduction – Offers real-time insights that support better decision-making and help improve cash flow
- 6) Real-time payment tracking to monitor and control every transaction
- 7) Comprehensive accounts receivable software designed to simplify receivables management
- 8) Strategic use of finance automation tools for speed, scalability, and security
- 9) Access to advanced AR management tools and virtual finance support
- 10) Affordable models for SMEs businesses aiming to scale

Make every transaction count to control your finances.

With this integrated suite of services, IBN Technologies enables clients to streamline every part of the receivables cycle. From invoice automation to cash application automation, clients benefit from reduced manual effort, increased accuracy, and better visibility. These solutions are designed to support modern finance departments using the latest in finance automation tools and industry-compliant technology.

#### Social Proof: U.S. Companies Are Seeing Real Results with Automation

Across the United States, leading organizations are adopting outsourced AR automation solution services to enhance process optimization, elevate operational effectiveness, foster financial clarity, and support sustainable enterprise expansion.

The measurable impact of automation on finance operations.

1) With the adoption of automation, a major healthcare provider in the US has significantly enhanced its Accounts Receivable operations. Leveraging accurate document capture and processing, the organization now processes each invoice in just 4 minutes—drastically reducing turnaround times and improving overall efficiency.

2) In a further step towards digital transformation, the provider integrated a multichannel capture system that enables seamless intake of all incoming invoices—whether submitted by email, online portals, or in paper form. This capability has streamlined the invoice management process and strengthened control over cash flow.

IBN Technologies continues to lead in services like automation and transformation, equipping finance teams that deliver clarity, compliance, and cost-efficiency. As demand accelerates, IBN Technologies remains a trusted partner for scalable, future-ready financial operations.

## Comprehensive Automation for Scalable Finance Transformation

IBN Technologies delivers a unified financial automation suite designed to modernize core receivables functions and enhance operational resilience. From invoice automation and cash application automation to real-time payment tracking, AR management tools, and accounts receivable software, each component is engineered to streamline processes, mitigate risk, and support data-driven decision-making. Integrated seamlessly with secure ERP systems, this end-to-end platform empowers finance leaders to optimize workflows and accelerate growth with precision and confidence.

As the pace of financial transformation accelerates, organizations can no longer depend on fragmented systems or reactive processes. IBN technologies deliver AR automation solution services with a strategic foundation for businesses to transition from legacy operations to agile, scalable finance models. IBN Technologies supports organizations in strengthening oversight, improving financial accuracy, and establishing long-term operational value through its AR automation capabilities. Its solutions are structured to align accounts receivable functions with evolving business demands, emphasizing strategic control and scalability.
